Print on a thick paper or card. Fold the sheet down the center on the dotted line. Cut the cards into four and glue. For extra durability, you can laminate the cards.

PHONEMIC AWARENESS

- Explain to students that the letter combination **or** is another of the letter combinations called **r-controlled vowel sounds**.
- Remind them that these vowels are neither long nor short, and are sometimes difficult to hear.
- R-controlled vowels are vowels that are modified in sound by the **r** that follows them. As in the example “horn.”

PHONEMIC AWARENESS

- Say aloud the words “port” and then “pot.” Ask students which word has the same vowel sound as in “horn.”
- Make sure that students can differentiate between the two vowel sounds.
- Ask students to name other words with the r-controlled vowel sound /or/.
- Write the words on the board and ask students to circle the r-controlled vowel spelling.

PHONEMIC AWARENESS

- Show the Word Card for “corn.”
- Point out the letter combination that represents the /or/ sound. Tell them that the /or/ sound in this word comes in the middle of the word.
- Tell them that even though there are four letters in the word “corn,” there are only three sounds which blend to make the word - /c/ /or/ /n/.
- Repeat the exercise with the rest of the Word Cards. Ask students to blend the sounds to read each of the words.
