Chris Neely has worked as an economist at the Federal Reserve Bank of St. Louis since receiving his Ph.D. from the University of Iowa in 1993. Neely conducts empirical research in international financial markets. This research has focused on financial volatility, unconventional monetary policy, and market efficiency. He has published in leading academic journals, including the Journal of Economic Literature, the Journal of International Economics and the Journal of Econometrics and is or has been an associate, visiting and/or co-editor at many journals, including the Journal of Money, Credit and Banking and the Journal of Banking and Finance. While working at the Fed, Neely has taught economics and finance as an instructor, adjunct or visiting professor at several universities, including the University of Iowa, Washington University in St. Louis, St. Louis University, the University of Missouri at St. Louis and the University of Hawaii.
