

# NOTICE

## Childcare Health Safety

Your child's health is very important to us. Therefore we are taking every precaution we can to ensure our facilities are clean and as germ free as possible. While many of these items are standard practice for us, we have increased frequency in many areas.

### What the Y is doing

- Requiring kids to wash hands upon arrival to our facilities and before and after meals and snacks and additional times throughout the day;
- Limiting direct contact;
- Cleaning areas kids are in more frequently throughout the day;
- Disinfecting equipment and toys before and after use;
- Curbside drop-off/pick-up, parents are not allowed into our facilities;
- If a staff member or participant tests positive for COVID-19, we will immediately notify local childcare licensing and the Oklahoma City County Health Department for advisement.
- We'll be propping doors open, to decrease contact with surfaces.

### What you can do

- Talk with your child about washing hands and keeping hands away from mouth, nose and eyes;
- Do not bring your child to the Y if they have a fever;
- Do not bring your child back to the Y after they've been sick until they have been fever free, without medication, for 72 hours;
- Talk to your child about not sharing food and beverages;
- Talk to your child about keeping at least an arm's length from their friends;
- Remind your child that the Y is safe and to have fun!
