It all started with a seed of hope . . . planted decades ago by a group of visionary pioneers.

Fueled by groundbreaking research, steadfast advocacy, generous contributions and lots of hard work, the hope grew.

Nurtured by the unwavering dedication of countless scientists, volunteers, community members and so many more, the hope flourished.

Now we’ve come to the moment we’ve been waiting for . . . real hope is here.

Everyone and everything that’s contributed to the Christopher & Dana Reeve Foundation comes together in The Big Idea (see page 2). Without a doubt, epidural stimulation has the potential to change the course of recovery and the quality of life for millions living with a spinal cord injury.

The long-awaited, transformative breakthrough is here.

As you can imagine, it’s difficult to contain our excitement over the incredible impact of epidural stimulation research on the paralysis community. But just like any groundbreaking innovation, our progress must move forward with a clearly defined path.

In 2014, that path came into focus with new research featuring Rob, Kent, Andrew and Dustin, the four men who saw huge improvements in their ability to control autonomic functions and move their toes, feet and legs on command as a result of epidural stimulation. Through The Big Idea, we will advance this breakthrough by expanding epidural stimulation research to include 36 more individuals in the coming years.

The opportunity to make a tangible difference is here! Christopher Reeve once said, “Once you choose hope, anything is possible.” It never ceases to amaze us what this incredible community can do. Whether you join the Reeve Foundation by making a donation, or taking a giant leap and flying through the sky like Brandon Stone (see page 10), the important thing is that we keep moving forward together.

Through this annual report, we invite you to learn more—and join us—as we continue to transform hope into life-changing opportunities for the 5.6 million Americans living with paralysis.

Every movement has its moment. This is ours.

John (Jack) Hughes
Chairman, Board of Directors

Peter T. Wilderotter
President & CEO
Every Movement Has Its Moment. This Is Ours.

2014 was a watershed year for the Reeve Foundation, most notably with the unveiling of epidural stimulation research and the launch of The Big Idea to further investigate this breakthrough. Simply put, we believe epidural stimulation has the potential to ease some of the life-threatening health complications of a spinal cord injury and transform lives in the here-and-now.

The next phase of research will expand on the earlier study that demonstrated how epidural stimulation seems to have reawakened the spinal circuits of four young men with chronic, complete paralysis. As detailed in the medical journal *Brain*, all four men recovered the ability to stand and control voluntary movement in their legs, hips, ankles and toes in the presence of epidural stimulation. They also regained significant bladder, bowel and sexual function, as well as improvements in overall health, including regulation of blood pressure and temperature.

And the most exciting part? This is only the beginning . . .

The Big Idea will test the application of epidural stimulation in a larger, more diverse group of 36 individuals living with chronic, complete spinal cord injury. Research and medical experts have teamed up with principal investigator Dr. Susan Harkema to explore and measure the effect of epidural stimulation in several key areas:

- Cardiovascular
- Bowel, Bladder & Sexual Function
- Pulmonary
- Voluntary Movement
- Quality of Life
- Economic Outcomes

The last area of the study, economic outcomes, will document the impact epidural stimulation has on medical expenses and frequency of hospitalization. This analysis is crucial for the study, and for insurance companies who may be asked to pay for the intervention.

The ultimate goal of The Big Idea is to translate epidural stimulation from a scientific breakthrough into a safe and effective treatment for those who were told there was no hope for recovery after sustaining a spinal cord injury. There is always hope and we have living proof.

Learn more and #JoinReeve to change lives at ReeveBigIdea.org
“For the first time in a very long time, we had hope.”
A letter from Sophorn Meas, the wife of epidural stimulation participant, Drew Meas.

On September 6, 2006, my husband was hit head-on by a reckless driver. In an instant, our lives changed as Drew was diagnosed with a spinal cord injury (SCI) at C6-C7. There is a ripple effect when someone you love sustains a SCI—everyone feels the impact and everyone has to navigate a new way forward. Together, as a family, we figured out a new rhythm.

When Drew was selected to participate in a groundbreaking study featuring epidural stimulation, I didn’t want to get my hopes up. But the day that I saw Drew’s legs respond to epidural stimulation was the best moment in my life. All of a sudden, I saw a future full of adventures for the Meas family.

As Drew continues to shatter expectations, he has become a superhero to our son—a real-life Superman.

All I can say is thank you for giving us new hope for the future.

INTERNATIONAL RESEARCH CONSORTIUM ON SPINAL CORD INJURY
In September 2014, the Consortium held a day-long intensive workshop in Zurich with European thought leaders in medical research and translation. Workshop programs focused on ‘inclusive protocols’ in human spinal cord injury trials, imaging tools to assess damage and functionality of the injured spinal cord and brain, bladder control and ongoing and planned clinical studies.

NORTH AMERICAN CLINICAL TRIALS NETWORK® (NACTN)
A $2.5 million application submitted to the Department of Defense Joint Warrior Medical Research Program was recommended for funding in late 2014. Distributed during the years 2016–2017, the funding will ensure NACTN’s continued participation in RISCIS (Riluzole in Spinal Cord Injury Study) Phase 2/3 clinical trial. The study will enroll 351 participants and evaluate the efficacy and safety of the drug riluzole in treatment of participants with an acute spinal cord injury.

NEURORECOVERY NETWORK® (NRN)
In 2014, the NRN welcomed Journey Forward in Canton, MA, to its network of community fitness and wellness facilities. The primary intervention used at NRN sites is Locomotor Training, an activity-based therapy that activates the neuromuscular system below the level of the lesion. In the past year, the use of NeuroMuscular Electrical Stimulation (NMES) was introduced to the NRN as a second activity-based intervention through targeting upper extremity function.
PARALYSIS RESOURCE CENTER (PRC)

PEER & FAMILY SUPPORT PROGRAM

To expand accessibility and outreach, the Peer & Family Support Program continues to leverage technology to create virtual peer mentor training, social media connections and other opportunities to make it easier for both peers and mentors to join the program and find a good match. In the three years since the program’s launch, many have shared their thoughts about its impact.

“Having a peer mentor has meant a lot to me as I have felt alone in a community of people without disabilities. No one understands what I am going through better than a peer mentor. I am excited about my future. I would like to take a peer mentor training so I can share my struggles as well as my successes.”

“Sue is a life line for me while I adjust to life in a wheelchair. We have never met in person, but that hasn’t stopped us from sharing our lives. She is playing a huge role in my ability to establish a satisfying life.”

“Your words of support and encouragement were so reassuring, and the suggestion to have a caregiver mentor for me was like a ray of sunshine. Thank you. I feel like I can face another day, and the day after that.”

“Thanks to the Reeve Foundation Peer & Family Support Program, I feel that me and my family will not stand alone in this new journey of rebuilding my life as well as that of my family.”

“The Reeve mentoring program is one of the best mentoring programs because they not only work with the patient, but also with the family.”

INFORMATION SERVICES TEAM

Each day, a team of highly trained Information Specialists responds to critical inquiries with help and information for paralysis-related questions.

In 2014, we launched the Ask-A-Nurse Program. Every week, Linda M. Schultz PhD, CRRN, appears live in the online community to address subjects related to paralysis and integrating various healthcare improvements into daily life. Each Monday, Schultz posts about topics ranging from bladder management to skin care, and community members can submit questions before or during the live online chat. The highly successful program has reached as many as 2,200 people per discussion theme.

The Reeve Foundation also established a new partnership with Boys Town®, a national organization that offers support and care for at-risk children and families as well as a national, 24/7 hotline staffed by specially trained counselors. The partnership established a dedicated Reeve Foundation hotline for callers in dire crisis. Boys Town staff members were trained to navigate critical conversations with individuals living with paralysis. In turn, Reeve Foundation Information Specialists were trained to better identify someone at risk and appropriate protocols to transfer a caller to the hotline.

A new Sepsis Wallet Card, the third in the series of free, personalized wallet cards, is now available to provide life-saving information for medical professionals to better treat people living with paralysis.

To learn more, visit Paralysis.org

More than 435 trained peer mentors in over 35 states have mentored more than 2,000 peers since 2011.
SPEAKER’S PROGRAM
Each year, the Reeve Foundation sponsors experienced speakers to educate healthcare professionals at universities and rehabilitation centers across the nation. The speakers discuss the importance of their relationship with patients and review tools and resources available through the Reeve Foundation for individuals living with paralysis.

Here’s an excerpt from one of the many letters we’ve received from Speaker Program attendees.

“...I am writing to let you know how much we appreciated having Gary Karp speak to our occupational therapy students at the Medical University of South Carolina on February 12. The students said his message was ‘inspiring,’ ‘powerful,’ ‘enlightening,’ and “well-delivered.” One student said that Gary “inspired me to live my life in a way that I hadn’t thought of.” I know that these students will take his message forward with them as they begin establishing professional relationships with clients. Thank you for being his sponsor on this project and for sending him all the way to Charleston!”

Warm regards,
Amanda K. Giles, OTD, OTR/L
Instructor, Division of Occupational Therapy
Medical University of South Carolina

NEW PARTNERSHIP WITH ADMINISTRATION FOR COMMUNITY LIVING
The PRC has a new home at the Administration for Community Living (ACL), a federal agency under the U.S. Department of Health and Human Services. The ACL was formed in April 2012 to advance policy and implement programs that support the rights of people with disabilities to live in their communities throughout their lifespan. Together, the PRC and ACL will strive to support optimal care of individuals living with paralysis by promoting community living, independence and reintegration into society.

The stunning photography of the late Christopher Voelker adds depth and dimension to the Reeve Foundation’s Paralysis Resource Guide, a vital and comprehensive tool for individuals, families and caregivers.

COLUMBUS RECREATION AND PARKS
COMMUNITY RECREATION COUNCIL
Columbus, OH
$11,650 for Adaptive Sports
To enhance recreational and competitive sport opportunities for individuals living with paralysis, this grant provides program support for wheelchair football, power soccer, four-foot hoops wheelchair basketball, summer multi-sports camp, Paralympic boccia and Paralympic swim team.

CHILDREN’S HOSPITAL OF WISCONSIN FOUNDATION
Milwaukee, WI
$15,315 for Children with Paralysis
Go Baby Go Workshops teach parents and physical therapists how to purchase and modify an inexpensive off-the-shelf, ride-on electric kid’s car to increase ambulation for children (ages birth to 3 years old) living with impaired mobility. In addition, a community equipment lending library will provide ZipZac® mobile chairs to children from birth to age 3 with paralysis.

ASSIST! TO INDEPENDENCE
Tuba City, AZ
$25,000 for Native American Community
A wheelchair accessible mini bus was purchased to provide transportation for individuals with disabilities who live in under-served areas located on Navajo-Hopi and San Juan Southern Paiute Tribal Lands. Individuals are transported to medical facilities, advocacy meetings, life skill trainings and peer mentor classes designed to promote independent living.

In 2014, the Reeve Foundation met with a series of congressional leaders to showcase the work being done in communities across the country and to secure support for the Paralysis Resource Center and the Administration for Community Living. These hallmark events put a face on the real-life impact of the Reeve Foundation’s programs for individuals living with paralysis.

Congresswoman Diana DeGette at Craig Hospital in Colorado

Congresswoman Joyce Beatty at Ohio State University

Congressman Leonard Lance’s Roundtable on 21st Century Cures in Westfield, NJ. The Reeve Foundation provided comments to the Energy and Commerce Committee as to how the government can expedite the development of new treatments and cures for people living with paralysis and other disabilities.

**INSERTING A VOICE IN POLICY DISCUSSIONS**

The Reeve Foundation has engaged advocates on a variety of policy areas that directly impact the paralysis community. Advocates have called their Members of Congress, sent emails and tweeted on these issues:

- Advocate against site-neutral payments and have Medicare acknowledge the difference in outcomes between in-patient rehab facilities and skilled nursing facilities
- Support the permanent repeal of Medicare Therapy Caps
- Repeal Medicare Improvement Standard
- Support Medicare Durable Medical Equipment, Prosthetics, Orthotics and Supplies (DMEPOS) Competitive Bidding Program
- Support Complex Rehab Technology
- Ratify the UN Treaty
From east to west, north to south—and even 10,000 feet above the ground—Team Reeve members never cease to amaze with their courage, drive and dedication to raise awareness and support for spinal cord injury.

A Team Reeve alumna selfie at the start of the NYRR Brooklyn Half Marathon in May. Running in honor of her big brother, Zack, Danny Weinstein (left) celebrated her second year with Team Reeve. Dawn Hering Manzo (right) has run a number of full and half marathons for Team Reeve. She returned this year after taking a break to have her son, Joey, as it is the 20th anniversary of her father’s spinal cord injury.

Jennifer Sator (right) rallied her family to run the Disneyland 5K in August in honor of their sister/cousin. She said, “After talking with my sister about how the Reeve Foundation’s website and community resources helped support her as she heals, I knew this was something I wanted to do. When my brother and cousins signed on to help, that was just icing on the cake.”

$10,000 FROM 10,000 FEET

“I never wanted to skydive,” says 33-year-old Brandon Stone. “It was never a life dream or anything.”

Until a chance encounter with a skydive instructor at the Tulsa, OK, music festival inspired him to give it a try. He also decided to make his jump a fundraiser.

“If I can face my fears, and, at the same time, inspire other people to face theirs and raise money to help people, like me, who have suffered a spinal cord injury, then I think I have to do it,” says Stone, who broke his back in three places and suffered multiple life threatening injuries in a 2005 car accident. “I feel lucky to be alive, and I wanted to use this skydiving experience to give back.”

Stone was already familiar with the Reeve Foundation through using its resources, so it was an easy decision to join Team Reeve for his fundraising efforts. Thanks to a generous matching gift from his employer, Joe Rice, President and CEO of Joseph David International, Stone’s jump raised almost $11,000 for the Reeve Foundation.

His biggest take-away? “My mind couldn’t fathom the idea of jumping out of a plane. Through this experience, I realized that even though I think I can’t do something, I can,” says Stone, who is trying to figure out how to one-up himself for his 2015 fundraiser. “I just need to set a plan, make a goal, and I can do whatever I want. I just need to take that leap of faith.”

HEALING THROUGH HIKING

Everything was starting to fall into place for Brittany Neal. A recent Virginia Tech graduate with two bachelor’s degrees in agribusiness and animal sciences, she landed her first “real” job as a large animal tech and horse trainer.

Then, one day in October 2013, she was leading a trail ride, when a pumpkin cannon spooked her horse, tossing her to the ground and crushing her vertebra.

“It was the scariest thing I’ve ever gone through,” says Neal, who sustained a compression fracture at her L4 vertabrae. “I spent five months in a back brace, hardly able to twist and do daily tasks, as my spine slowly began to heal itself. I lost my job, and it seemed like my life was falling apart.”

As part of her healing process, she decided to plan something she had only ever dreamed of—backpacking the 2,200-mile Appalachian Trail from Georgia to Maine. She gathered sponsors, joined Team Reeve, and in early April 2014, just six months after her accident, Neal and her beagle, Scout, began their journey.

“The experience was incredible and frustrating,” says Neal, who sent her canine companion home half way through the trail because of concerns for his health. “Every emotion you can think of rolled into one. Every day was different.”

In September 2014, just shy of a year after her accident, Neal completed the trail.

“A big part of the hiker community is the motto ‘pay it forward,’” says Neal. “I hope the money I raised as part of Team Reeve will enable continued research, education and services for patients and their families. I also hope to inspire other people to step outside of their comfort zones and have an adventure, no matter their limitations.”

The first person to skydive for Team Reeve, Brandon Stone wore a Superman costume in honor of Christopher Reeve at his October 2014 jump.

SUPPORTER SPOTLIGHTS

ACTIVELY ENGAGED: KAREN COOK

A self-professed “exercise addict,” Karen Cook has spent most of her life on the move.

“I love to run, swim, dance, you name it,” says Cook, who was an elementary school teacher in Columbus, OH, for 25 years. “I also loved to be active with my students. I would write plays that used creative props and movement. I never slowed down.”

Cook is equally passionate about travel. But as she gets older, she has become more limited in her abilities. “I can’t do things like I used to. All that activity wore out my body,” says Cook.

In 2007, Cook had back surgery to repair badly torn disks. After several years of relief, she now has multiple back problems and a high appreciation for the challenges that come with physical limitations.

“I really connected with Christopher Reeve’s story after his accident,” says Cook, who read his book and followed the news stories about his injury and recovery. “Being very active myself, I felt a strong lifestyle connection to him. It is such a challenge when a body isn’t working correctly.”

As her travel and other activities slowed, Cook decided to use her savings to create a charitable trust and donate any unused balance to help support causes that are important to her, including the Reeve Foundation.

“I admire Christopher Reeve’s spirit and the vital work the Reeve Foundation is doing,” says Cook. “With all the money poured into technology advances these days, I think more resources should go to helping people get out of wheelchairs. I hope that, one day, the resources from my estate can help.”

For more information about the Reeve Foundation’s Michael A. Hughes Planned Giving Society and about how you can include the Reeve Foundation in your estate plans, please visit: ChristopherReeve.org/PlannedGiving or email plannedgiving@ChristopherReeve.org

UNWAVERING COMMITMENT: PATRICIA AND BOB VOLLAND

Since joining the Reeve Foundation Board of Directors in 2012, Patricia Volland has learned two things.

“First and foremost, I’ve gained a better understanding of the Reeve Foundation’s involvement and commitment to people with spinal cord injury,” says Volland. “It is amazing to see their dedication to research, quality of life and advancing life for people.”

Volland continues, “I was also struck by how effectively the staff is involved in advancing opportunities and awareness in federal policies. I am able to use my professional experience to help advance the potential for increased disability payments at a federal level. This is very rewarding.”

Volland, who is living with quadriplegia from a 2009 motor scooter accident, has many years of experience in the healthcare field. She is Visiting Distinguished Lecturer at the Silberman School of Social Work at Hunter College and the Director of the Social Work Leadership Institute, where she works to ensure that America’s older adults maintain their independence and enjoy their lives to the fullest. Her prior experience includes 20 years as a Senior Vice President at the New York Academy of Medicine and involvement with Planned Parenthood.

“It is rewarding to be part of the community,” says Volland’s husband, Bob, who represented the Reeve Foundation as part of the Congressionally Directed Medical Research Program. “By helping others, we help ourselves.”

In 2015, the couple is hosting their first “Parlor Meeting,” a gathering to bring together their friends along with Reeve Foundation friends to learn more about The Big Idea, the Reeve Foundation’s groundbreaking research.
Team LeGrand of the Christopher & Dana Reeve Foundation has hit the ground running. In little over a year, thousands of supporters exceeded fundraising goals with inspiration from Eric and his mother, Karen.

Goldman Sachs invited LeGrand to the company’s informational and inspirational program series during National Disability Employment Awareness Month.

More than 130 people attended the 2nd annual An Evening with Eric LeGrand hosted by Newroads Financial Group of Clifton, NJ. The event raised more than $40,000 for Team LeGrand.

In recognition of National Disability Employment Awareness Month, Johnson & Johnson Information Technology welcomed Team LeGrand to their Raritan site to raise awareness and support for the cause and community.

Many gathered at Martini Bistro & Bar in Millburn, NJ, for Team LeGrand Night. The May event featured hors d’oeuvres and an exclusive martini tasting presented by Grey Goose, Tito’s, and Skyy Vodka.
LeGrand received a degree in labor relations from Rutgers University and spoke at the May commencement ceremony.

The HBO Sports series, State Of Play, spotlights a topic or person with undeniable impact on the contemporary sports world. A 2014 episode featured LeGrand and his journey to navigate life with a spinal cord injury.

LeGrand (pictured with Olympic track and field and bobsled athlete, Lori “Lolo” Jones) served as an ambassador for the 2014 Wings for Life World Run.

Tim Baxter, president of Samsung Electronics America, presented the Samsung Hope for Children Champion of Hope Award to LeGrand at the annual star-studded Hope for Children Gala in New York City.

At the 4th annual A Walk to Believe, many gathered for a 5K walk held at Rutgers University's High Point Solutions Stadium followed by a barbecue to celebrate and support Team LeGrand.

To join Team LeGrand, visit TeamLeGrand.org
It was *A Magical Evening* indeed on November 20 as hundreds gathered in New York City at the Cipriani Wall Street® for the Reeve Foundation’s signature gala.

Travis Roy, founder of the Travis Roy Foundation, was honored with the *Christopher Reeve Spirit of Courage Award*. “I receive this award tonight on behalf of everyone that has supported me and the work of the Travis Roy Foundation,” said Roy. “I may be the front man, but my success has come from all of you. You’ve helped give me a life that is every bit worth living. A life that has purpose, quality and happiness.”

**SAVE THE DATE**
25th annual *A Magical Evening*  
Thursday, November 19, 2015  
Cipriani Wall Street

This year’s gala honored Senator Tom Harkin (D-IA) with the *Dana Reeve HOPE Award*.

In tribute to a true leader, passionate humanitarian and dear friend, the Reeve Foundation announced the *Arnold Snider Visionary Leadership Award*. As Vice Chairman of the Board of Directors, Snider, who passed away in January 2014, generously gave his time, resources and heart to the Reeve Foundation. Julian Robertson presented the award to Snider’s wife, Kit, and their children.

TV host Meredith Vieira emceed the event which raised $1 million to support the Reeve Foundation.
Hosted by Will Reeve, Alexandra Reeve Givens and Matthew Reeve, the 24th annual event featured a heart-felt tribute by Robin Williams’ son, Zak Williams.

Grammy-nominated singer-songwriter Rufus Wainwright performed “Across the Universe” to a slide show of Robin Williams and Christopher Reeve through the years.

Billy Joel’s daughter, singer-songwriter Alexa Ray Joel, sang for the sold-out crowd of 500 supporters.

Grammy-nominated singer-songwriter Rufus Wainwright sang “Across the Universe” as photos were shared of Williams and Reeve through the years.

“Their friendship beginning as college roommates at Julliard was nothing short of amazing,” said Zak Williams, Williams’ son and Reeve’s godson who took the stage to honor both men. “In my eyes, they are my superheroes. Goodness was baked into their DNA. They lived and breathed kindness and generosity.”

After Reeve’s accident, Williams joined the Reeve Foundation Board of Directors and immediately assumed the role of advocate for individuals living with disabilities. In 1998, the Reeve Foundation honored Williams with the inaugural Human Spirit Award and then recognized him again in 2007 at an event in Los Angeles.

“While our hearts ache with the loss of our friend,” said Reeve Foundation President & CEO, Peter Wilderotter, “It is unlikely Robin would want us to mourn his passing with silence, but to celebrate his life through laughter.”

REMEMBERING ROBIN WILLIAMS

A beacon of passionate support and unwavering friendship, Robin Williams was honored in a special tribute at this year’s A Magical Evening.

“Robin was a light in our family for as long as we can remember,” said Will Reeve at the event. “But beyond the gift of laughter, he gave our family and the Reeve Foundation the gift of his simple, steadfast friendship which is a gift we will treasure forever.”
On December 7, more than 150 people gathered for the 2nd annual Hope for the Holidays gala event at the Ritz-Carlton Marina del Rey. Guests included Reeve Foundation Board Member Marci Surfas and her sister, Mandy Salas-Dickey, pictured with Dax Stevens, Anna Makarechian and Tae Dickey. Hosted by Adele Rene, the star-studded event featured comedians Cathy Ladman and Taylor Tomlinson, epidural stimulation participant Dustin Shillcox and professional wrestler Natalie Eva Marie Coyle and her husband, Jonathan. Will Reeve presented the 2014 HOPE Award to Steve Hoffman, the basketball player featured in the award-winning Guinness commercial.

More than 300 people gathered at the Gibson Guitar Showroom in Miami, FL, for the 2nd annual One Split Second fundraiser. Hosted by Alan Roth, the event featured a concert by Matisyahu and raised $45,000 for the Reeve Foundation.

Alan Brown and Sabrina Cohen enjoyed the 1970s-themed fundraiser, Raise Your Funk, at the Seminole Hard Rock Hotel and Casino in Hollywood, FL. More than 300 people attended this 3rd annual event which raised more than $40,000 for the Reeve Foundation.

A team of staff, volunteers and professional advisory boards in three southern California markets are working to advance the Reeve Foundation’s programs and initiatives in the western region. To help raise much-needed support for The Big Idea, a reception was hosted by Sam Gores, Paradigm Agency and Vanessa Marano in Beverly Hills. Cheryl Bianchi also hosted a parlor reception in Studio City.
On April 12, nearly 125 supporters and friends of the Stifel family gathered at City Winery in New York City for the 4th Annual Spring Wine Tasting Benefit. Guests enjoyed light fare, a raffle and silent auction, live music and a winery tasting while raising nearly $40,000 for the Reeve Foundation.

Beauty, empowerment and passion are the hallmarks of Raw Beauty Project NYC, an innovative photography exhibit created by Wendy Crawford, Dr. Susan Solman and Ginny Dixon to celebrate the lives of women with disabilities. Designed to ignite global conversation, redefine beauty and unleash potential for all women, the photographs were unveiled at ACA Galleries in New York City on Saturday, September 20, with proceeds from the event benefiting the Reeve Foundation. After attending the 2014 event, Reeve Foundation corporate partner, Acorda Therapeutics, was inspired to bring the exhibit to their Westchester, NY, and Boston, MA, offices in 2015.

To learn more, visit ChristopherReeve.org/events
Cocktails, hors d’oeuvres and tunes from guest DJ Yoshi were enjoyed by all at the Champions Committee Autumn Social at the Gilded Lily in New York City on November 10. The Champions Committee brings together enthusiastic, philanthropic individuals in the New York area to help further the Reeve Foundation’s important work.

Since holding the first Greenlake Walk & Roll in October 2011 in partnership with the Reeve Foundation, the Spinal Cord Injury Association of Washington has nearly tripled the contributions with more than 300 participants in 2014.

Team LeGrand and Mike Nichols, a Monroe Township High School senior who fractured his C5 vertebrae during a hockey game in January, received the proceeds from this year’s 8th annual Friends and Neighbors in Action 5K Race and Fun Walk, held in September at Thompson Park in Monroe Township, NJ.
ENCOURAGING ADVANCES: MIKE YEISLEY

When Mike Yeisley’s father, Jim, fractured his neck in a 1987 car accident, his family found few resources and little support.

“Our initial doctor misdiagnosed the damage and said my father would die,” says Yeisley. “After a transfer to Houston Methodist Hospital, x-rays revealed a C5 fracture.”

“Our experience was a nightmare. It was so hard to get what we needed,” says Yeisley. “Just trying to get a hand pedaler cost a fortune; now all that stuff is so available.”

Jim lived for 12 years after his accident and passed away on Christmas Day 1999.

“Our family was so grateful to have the time with him,” says Yeisley. He is also grateful that people living with spinal cord injury today have access to so many more resources.

“It is light years ahead how far things have come for people living with spinal cord injury in the last 20 years,” says Yeisley. “It is amazing to see how much has changed, and how much good work the Reeve Foundation has done.”

Yeisley first learned about the Reeve Foundation after he read Christopher Reeve’s book. He donated off and on for several years. Then, last year, he decided to become a Hero for Hope through monthly giving.

“As I get older, helping others becomes more important,” says Yeisley. “And it is nice for the Reeve Foundation to have a regular stream of resources they know they can rely on.”

Yeisley continues, “It is so exciting to see some of the things the Foundation is doing, like the epidural stimulation research and Quality of Life Grants. These programs, and many others, are so important to helping people with spinal cord injury feel like a human being again.”

Become a Hero for Hope

Your monthly tax-deductible gift is easy to set up and change at any time through convenient automatic deductions from your credit card or checking account.

MAXIMIZING SUPPORT: THE WESTERVELT COMPANY

Bob and Jessica Robertson first became aware of the Reeve Foundation after Jessica sustained a spinal cord injury from an accidental fall in 2007.

“I got up to get water in the middle of the night and fainted,” says Jessica, who is paralyzed from the mid-chest down and was treated at the Frazier Rehab Institute in Louisville, KY, one of the Reeve Foundation’s NeuroRecovery Network® centers. “I have been amazed at what the Reeve Foundation can do and will continue to do in the future.”

Several years ago, the Robertson’s learned about the matching gift program offered by The Westervelt Company, a privately-owned natural resource company headquartered in Tuscaloosa, AL, in which Bob’s family owns stock.

“Westervelt offers shareholders a $14 match for every $1 donation up to a determined cap,” says Bob, whose grandfather was given the stock many years ago as an executive with the company. “Our family only has a small percentage of stock but with such a generous program, the money really adds up.”

Ray Robbins, Vice President, Secretary & General Counsel at The Westervelt Company, says that many of the company’s shareholders take advantage of the matching program. “The company is proud to help support the charities that are near and dear to our shareholders’ hearts.”

The Robertson’s strongly encourage others to find out about their company’s matching gift program.

“There are many other companies that match shareholders’ contributions,” says Bob. “By sending a donation for the matching funds, you can have a say in where your company’s charitable giving goes.”

Want to help? There are so many ways to share your support with the Reeve Foundation. From workplace giving programs and corporate in-kind donations to a company Team Reeve challenge or hosting a business fundraising event, your generosity makes a huge impact for the spinal cord injured community.

Please contact us to learn more, (800) 225-0292 or email donations@ChristopherReeve.org
We are deeply grateful for the vital support of all Reeve Foundation donors and are pleased to recognize here the many generous contributors whose cumulative giving in 2014 totaled $1,000 or more. Please accept our apology in advance for any inadvertent errors or omissions, and please contact us with any corrections for future listings at (973) 379-2690 x7114. Thank you for your continued commitment to our mission and community members.
