The U.S. Virgin Islands consist of the main islands of Saint Croix, Saint John, and Saint Thomas, and many other surrounding minor islands. Many, but not all, social welfare programs that are available in the 50 states and the District of Columbia are also available in the United States territories of American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Some programs are only available in certain territories and for some programs the territories receive funding based on different formulas or under different circumstances than do the states.

Re Obamacare:
If you live in the US Virgin Islands, you’re not eligible to use the federally funded Marketplace to apply and enroll in health coverage. Check with your territory’s government offices (http://www.guam.gov/) to learn about Medicaid, CHIP, and other health care options.
