

SPECIMEN LABEL

NON IONIC ORGANIC WETTING AGENT PLUS BIO-ACTIVATOR

INGREDIENTS:

Alkyl Polyethoxy Ethers and other Ethoxylated Derivatives	80%
Constituents ineffective as spray adjuvants	20%
Total	100%

CAUTION

KEEP OUT OF REACH OF CHILDREN

Avoid contact with eyes. In case of contact, flush eyes with water for at least 15 minutes and get medical attention.

GENERAL INFORMATION

DI AQUA is a liquid nonionic surface active agent of the alkyl polyether alcohol type. It is a very effective additive to herbicide, insecticide and fungicide sprays because it increases contact activity, aids in penetration, provides uniform coverage, and increases retention of sprays. DI AQUA improves the wettability of water, and it is not harmful to grasses when used at recommended rates. As a dew preventer the residual action will depend on the frequency of watering.

E.P.A. Est. No. 48234-GA-I

Regal Chemical Company // Alpharetta, GA 30004

DIRECTIONS

DI AQUA can be used with most fungicides, herbicides, miticides, defoliants and desiccants to improve performance of the active spray ingredient by giving more uniform distribution, better wetting of plant surfaces, and better absorption into the plant. It should not be used with any toxicant contrary to the directions of the manufacturer. Its use varies with the type of toxicant, but is dependent on the volume of water used in each case.

For use with herbicides, insecticides and/or fungicides.

Use 1-2 pints per 100 gallons of water.

For use as a dew preventer:

Use 2 quarts per 200 gallons of water.

METHOD OF ADDITION

For water soluble materials and wettable powders dissolve DiAqua in water before adding active chemical ingredient. For emulsifiable products add DiAqua after a good emulsion is formed.

D.O.T. CLASSIFICATION

Non Hazardous

E.P.A. CLEARANCE

40/CFR 180.1001

NOTICE TO BUYER

Seller warrants that this product conform to the chemical description on the label thereof and is reasonably fit for purposes stated on such label only when used in accordance with directions under normal use conditions. The warranty does not extend to use of this product contrary to label use directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to sell; buyer assumes all risk of any such use. Seller makes no other warranties; expressed or implied.
