RegalStar® II is a pre-emergent herbicide for control of annual grasses and broadleaf weeds in established turfgrass (Bermudagrass, Zosiagrass, Bluegrass, Tall Fescue, and many other grasses) and landscape ornamentals. Dual modes of action from Oxadiazon and Prodiamine provide unmatched weed control.

RegalChem.com

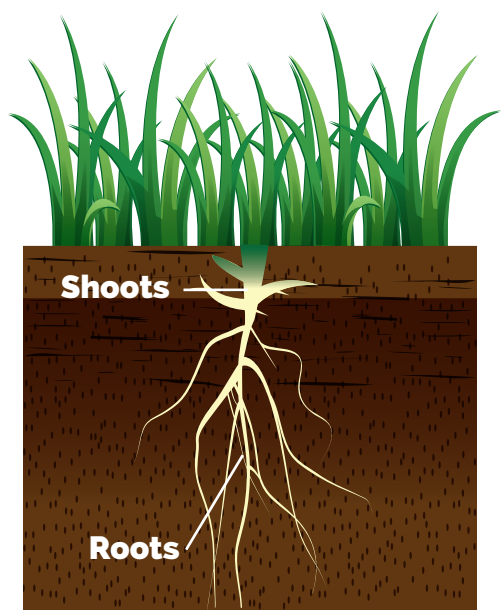

Why is RegalStar® II the Best?

Kills emerging Roots AND Shoots with two modes of action in one application.

RegalStar II controls broadleaf weeds and grasses with two herbicides and differing modes of actions:

- Oxadiazon kills undesired plants emerging shoots
- Prodiamine kills undesired plants emerging roots

The one-two punch delivers a knockout that lasts all season long without adverse effect on the desired turf and ornamentals.

RegalStar® II

stays in the germination zone. Its unique dual action eliminates resistance concerns by working on weed seed roots as well as the emerging shoots.

Guaranteed Analysis

1% Oxadiazon
0.2% Prodiamine

Save Time and Get Results

- RegalStarII controls broadleaf weeds, grasses and the toughest to control weeds.
- A single application can provide season-long control
- Spring, Summer and Fall applications are possible
- Dual mode of action aids in the prevention of resistance development
- Adds herbicide synergy to the best fertilizer programs
- Single application reduces labor
- No Staining
- Uniform Coverage

Weeds Controlled:

Grassy Weeds

- Goosegrass
- Crabgrass
- Foxtails:
Yellow, Green & Giant
- Annual Bluegrass
(Poa annua)
- Barnyardgrass
- Crowsfoot
- Dallasgrass
(from seed)
- Other Grassy Weeds

Broadleaf Weeds

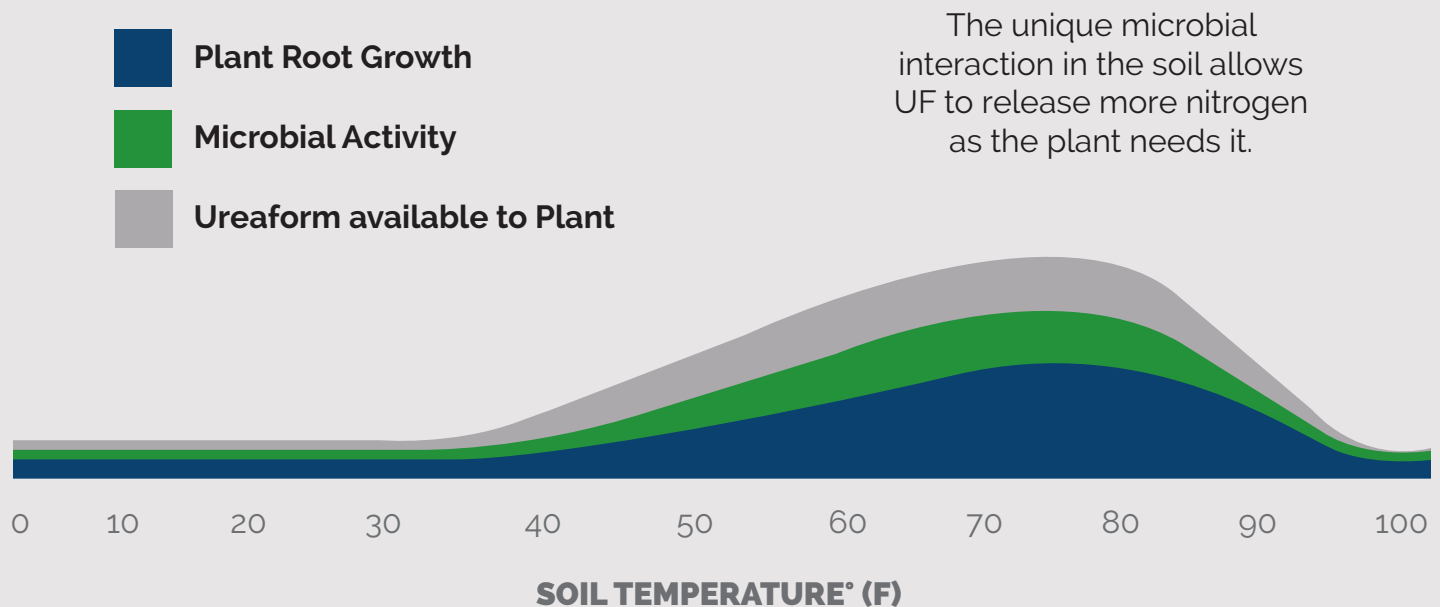

- Spurge
- Knotweed
- Chickweed
- Woodsorrel (Oxalis)
- White Clover
- Henbit
- Pigweed
- Lambsquarter
- Shepherdspurse
- Other Broadleaf Weeds

Generally, RegalStar II is formulated on 38-0-0 (UF) fertilizer, providing the most consistent controlled feeding nitrogen in the turf industry.

- The BEST fertilizer carrier provides 38-0-0 (UF) critical controlled feeding nitrogen performance.
- RegalStar II on 38-0-0 (UF) fertilizer carrier provides season-long fertility and weed control in a single application.
- Applications can be made to dry turf in all seasons (Spring, Summer, Fall, Winter).
- When you apply RegalStar II on 38-0-0 (UF) fertilizer you reduce labor, reduce compaction and receive superior performance.

170 sgn UF carrier is the ideal shape, size and texture to provide The BEST carrier for RegalStar II.

RegalStar® II Ureaform (UF) Feeding Characteristics

To optimize the benefits of RegalStar II on fertilizer, Regal recommends using one application of:

**38-0-0 (100%UF) RegalStar II @ 200 lbs./Acre
or
30-0-10 (100%UF) RegalStar II @ 200 lbs./Acre**

REGALSTAR II® Applications

GREENS & TEES

Not labeled for application to Golf Course Putting Greens

Tees:

- Cool season turf - 160-200 lbs./Acre
- Warm season turf - 200 lbs./Acre

FAIRWAYS

- Cool season turf - 160-300 lbs./Acre
- Warm season turf - 200-300 lbs./Acre

COMMERCIAL & RESIDENTIAL LAWN CARE

Commercial Lawn Care:

- Cool season turf - 160-300 lbs./Acre
- Warm season turf - 200-300 lbs./Acre

Residential Lawn Care:

- Not labeled for application to home lawns

SPORTS FIELDS & PARKS

- Cool season turf - 160-300 lbs./Acre
- Warm season turf - 200-300 lbs./Acre

ORNAMENTALS & NURSERIES

Commercial Landscape Beds:

- 200-300 lbs./Acre (4.5 - 6.75 lbs./1000 sq. ft.)

Residential Landscape Beds:

- 200-300 lbs./Acre (4.5 - 6.75 lbs./1000 sq. ft.)
- **Residential Landscape Beds must not include any turfgrass lawn within the defined limits of the beds.**

Nurseries:

- 200-300 lbs./Acre (4.5 - 6.75 lbs./1000 sq. ft.)
- See label for sensitive ornamental varieties.
- **Do Not apply in Greenhouses**
