

2017 HYUNDAI

ELANTRA

HYUNDAI ELANTRA & ELANTRA GT

THE 2017 ELANTRA FAMILY. HERE'S TO THE POWER OF SELF-IMPROVEMENT.

One look at the dynamic front grille, and it's clear the all-new 2017 Hyundai Elantra shares your belief that, with a little extra effort, things can be a whole lot better.

The Elantra sedan's new design is a more precise modern shape, cut with the taut lines of a cross-fit athlete. Inside, everything feels intuitive, with controls oriented around you, the driver. The wide layout of the instrument panel creates a sense of spaciousness that's no illusion: With 110 cubic feet of interior volume, the new Elantra's roominess led the EPA to classify it as a midsize sedan.

You'll find Hyundai's latest technology inside and out, with features like Proximity Key entry and a segment-exclusive hands-free smart trunk release.¹ Smart Cruise Control and Automatic Emergency Braking with segment-first Pedestrian Detection.² Advanced audio and navigation systems. Android smartphone integration with Android Auto™ and iPhone integration with Apple CarPlay™ support.³ Even headlights that track with the road as you corner – a feature typically found on luxury sedans.⁴

Check out the entire 2017 Elantra line: SE, Eco and Limited sedans or 5-door GT. You'll see that at Hyundai, self-improvement is a powerful movement.

¹ Available on Elantra SE, standard on Elantra Limited and Eco. ² Available on Elantra Limited. Smart Cruise Control (SCC) is not a collision avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible for slowing or stopping the vehicle to avoid a collision. Automatic Emergency Braking (AEB) with Pedestrian Detection detects pedestrians, but not in all conditions. The system initiates full braking at speeds between 5-28 mph when a pedestrian is standing, or from 5-43 mph when a pedestrian is moving. AEB is not a substitute for safe driving. See Owner's Manual for details and limitations. ³ Available on Elantra SE, standard on Elantra Limited and Eco. Delayed availability on Elantra GT. ⁴ Available on Elantra Limited.

ELANTRA GT Tech Package in Symphony Air Silver / ELANTRA LIMITED Ultimate Package in Electric Blue

¹ Motor Trend, "15 Cool Facts and Features On The 2017 Hyundai Elantra", December 2015. ² Claim based on comparison of specifications on manufacturer websites. ³ EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and vehicle's condition. ⁴ Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details.

ELANTRA ECO in Shale Gray Metallic

PRECISION ENGINEERING

HOW MUCH BETTER IS THE NEW ELANTRA? ASK A HYUNDAI ENGINEER.

When your goal is to improve, it helps to have specific numbers as your target. In the all-new Elantra, our engineers aimed for a lighter yet stronger body able to handle higher levels of engine performance. By reinforcing 53 percent of the vehicle's body structure with advanced high-strength steel, torsional rigidity and bending strength were improved over the previous model. That translates into a compact sedan with the supple ride and confident handling you'd expect in a larger, more substantial vehicle.

That rigid chassis is the ideal platform for Elantra's new 2.0L Atkinson cycle engine with a next-generation 6-speed automatic transmission. On the 2017 Elantra SE and Limited, it delivers more standard horsepower than the 2016 Toyota Corolla or Nissan Sentra.² Elantra's sleek new shape? It records a mere .27 coefficient of drag, making it more aerodynamic than a Nissan LEAF EV.²

The new Elantra is also quieter, thanks to extensively applied sound absorption materials and a variety of noise reduction strategies like front door glass that's now .5 mm thicker. See, there are those numbers again.

53% ADVANCED HIGH
STRENGTH STEEL

STRUCTURAL ADHESIVES, WHICH ARE USED MAINLY
IN MANUFACTURING AIRCRAFT, ARE USED IN THE
2017 ELANTRA TO IMPROVE NVH AND MAKE THE
CAR'S BODY STRONGER.¹ - MOTOR TREND

REDESIGNED REAR SUSPENSION

Once Elantra engineers achieved a more rigid chassis, they devised a new rear suspension geometry that allowed them to fine tune it for a balance of ride comfort and handling control. The suspension on our 2017 Elantra Sport debuting in fall 2016 is even more advanced, resulting in unparalleled agility and driving dynamics in its class.

EQUIPPED FOR EXTENDED FUN

New for 2017, the Elantra Eco sports a turbocharged 1.4L engine that pours up to 156 lb-ft of torque onto the pavement. The same 7-speed automatic Dual Clutch Transmission that improves acceleration also boosts Elantra Eco to an EPA-estimated 40 MPG on the highway with unsurpassed 35 MPG in combined city/highway driving.³ Your wallet and your right foot will both approve.

ENHANCED STABILITY AND TRACTION

The new Elantra uses Electronic Stability Control to give you confident response whenever you're steering through a turn. It automatically adjusts the engine, steering and braking system to help maintain sure-footed stability.⁴ Elantra's Traction Control and Anti-lock Braking System also assist by working together to help prevent wheel spin when accelerating on slippery surfaces.

CURTAIN CALL

One way Elantra SE, Eco and Limited are able to achieve a remarkable .27 drag coefficient is with an innovative "wheel air curtain" design. It manages and directs the flow of air from the front grille to help minimize air turbulence around the front wheels. An optimized underbody structure and longer trunk line also enhance Elantra's uncanny aerodynamics.

¹ Claim based on comparison of specifications on manufacturer websites. The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact collisions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag. ² Available on Elantra SE, standard on Limited and Eco. Do not rely completely on Blind Spot Detection (BSD) and be sure to use proper lane changing procedures. BSD may not detect every object or vehicle and will not prevent accidents. Lane Change Assist provides an audible and visual alert if the turn signal is activated and another vehicle in the blind spot is sensed. There are limitations to the function, range, detection and clarity of the system. Rear Cross-traffic Alert is active when the vehicle is in reverse and backing at a speed less than 6 mph. See Owner's Manual for further product details and limitations. ³ Forward Collision Warning is intended to be a supplement to safe driving practices. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles under certain conditions. The system does not provide a braking function. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. ⁴ Available on Elantra Limited. Lane Departure Warning with Lane Keep Assist operates above approximately 44 mph and only when the lane markings are clearly visible on the road. It will not prevent loss of control. Refer to your Owner's Manual for more information.

ELANTRA LIMITED Ultimate Package in Electric Blue

ADVANCED SAFETY

SAFETY THAT STARTS WITH SEVEN AIRBAGS. AND ENDS WAY, WAY BEYOND THAT.

Beneath the all-new Elantra's stylish skin lies an updated chassis design reinforced with more than 50 percent advanced high-strength steel. On the road, this translates into more precise handling that's long on enhanced safety benefits.

If you've done your homework, you know the 2017 Elantra has more advanced safety technology than any model we've ever built. And more advanced safety features than any model in its class.¹

The list is long, highlighted by available Blind Spot Detection with Rear Cross-traffic Alert and Lane Change Assist.² Elantra Limited features available Forward Collision Warning³ with Automatic Emergency Braking, Lane Departure Warning with Lane Keep Assist⁴ and Smart Cruise Control.

Elantra Limited is also the first car in its segment to include Pedestrian Detection with its Automatic Emergency Braking function. It's all to make the all-new Elantra the kind of car that makes you feel comfortable and secure. Every time you drive it.

REARVIEW CAMERA WITH DYNAMIC GUIDELINES

Backing out of driveways or into parking spaces can be a royal pain. Which is why dynamic guidelines are now part of the rearview camera on the 2017 Elantra. Yellow and red guidelines on the center console monitor bend to match your steering wheel angle and convey the intended path of your vehicle while backing up. Elantra's available Rear Cross-traffic Alert warns the driver if cars are approaching from the side while you're in reverse gear.

FRONT PEDESTRIAN DETECTION

The 2017 Hyundai Elantra is the first car in its segment to feature Pedestrian Detection. It's part of Elantra's available Automatic Emergency Braking, an advanced safety technology that senses a vehicle or pedestrian in front of you and warns the driver of a potential collision. If the driver doesn't maneuver to avoid impact, the system will apply emergency braking.

LANE DEPARTURE WARNING WITH LANE KEEP ASSIST

The new Elantra adds this safety innovation to help keep you out of harm's way. It detects lane markings and alerts the driver if the car begins to drift outside of the lane without signaling. The system will apply corrective steering assistance as necessary.

BLIND SPOT DETECTION

It can be tough sometimes to spot a car approaching you from your flanks. The new Elantra assists drivers with Blind Spot Detection safety technology. Using radar sensors located in the rear bumper, it helps detect vehicles in the driver's blind spot and warns with audio and visual alerts.

¹ Available on Elantra SE and GT. Standard on Elantra Limited and Eco. ² Standard on Elantra Limited, available on Elantra GT. Only use Blue Link and corresponding devices when it is safe to do so. Blue Link is available on most new Hyundai vehicles. Blue Link subscription service agreement required. Features vary by subscription plan. Blue Link service works using CDMA-based cellular networks in the 50 United States. Blue Link service is not available where there is no cellular coverage, particularly in enclosed or remote areas. Service availability may be affected by signal strength, foliage, weather, topographical conditions (mountains) and nearby structures (tall buildings, tunnels) and other factors. For additional details and system limitations visit HyundaiBlueLink.com. Remote Vehicle Start is only available for push button start equipped vehicles with an automatic transmission or a Dual Clutch Transmission. Not available on all models. Remote Climate Control available on properly equipped models with fully automatic temperature control.

ELANTRA LIMITED Ultimate Package in Beige Leather

The image shows the interior of a car, focusing on the front and rear seats. The seats are upholstered in a light beige or cream-colored leather with visible stitching. The front passenger seat is on the left, and the rear seat is on the right. A large window is visible in the background, showing a bright, possibly outdoor scene. The car's interior design is modern and clean.

PREMIUM COMFORT

GO AHEAD: TELL EVERYONE YOU DRIVE A LUXURY SEDAN.

Walk up to the all-new Elantra Limited or Elantra Eco, and door handle approach lighting normally found on luxury sedans lets you know you've arrived somewhere special. Proximity Key entry and a segment-first hands-free smart trunk offer easy access regardless of how full your hands might be.

Open the door, and you're greeted by a wealth of comfort and convenience features. There's the warm welcome of heated front seats¹ (on our Limited model, there's a rear seat heating option, too). Elantra Limited is also the first car in its segment with an available Integrated Memory System. At the touch of a button, it remembers the exact position of your driver seat and side mirrors. Along with a tilt-and-telescopic steering wheel and large LCD center console display, it gives you the sense that your Elantra is custom-tailored.

What temperature do you want on your side of the cabin? Thanks to dual automatic temperature controls, the driver and front passenger both get to choose.¹ Want to warm or cool the cabin before you arrive? With Hyundai's Blue Link[®] Remote Start with Climate Control, you can.² And Elantra Limited features dual USB ports for charging multiple digital devices. Doesn't all of that sound a lot like a luxury sedan?

2017 ELANTRA GT

FIVE DOORS, NO COMPROMISE.

For those who want spirited performance and European styling with an extra helping of interior versatility, the 2017 Elantra GT presents an exceptional alternative to our Elantra sedans. Along with a personality that rivals many compact CUVs.

It starts with a powerful 173 horsepower 2.0L GDI engine that delivers a best-in-class power-to-weight ratio.¹ Next, Hyundai engineers stiffened Elantra GT's body over the previous generation, and retuned its motor driven power steering and sporty suspension for fun-to-drive handling. Along with a more precise feel behind the wheel. It's engineering like this that helped Elantra GT earn an NHTSA 5-Star Safety Rating for each of the past four years.²

Elantra GT's creature comforts are no less rewarding. Cavernous cargo space is accented by handy storage spaces everywhere you reach (including a cooled glove box). So sit, sync your smartphone, and settle into the available 10-way power driver seat with heating, ventilation and lumbar support. One thing's for sure – you won't be settling for second-best.

¹ Claim based on comparison of specifications on manufacturer websites. ² Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (safercar.gov).

ELANTRA GT Tech Package in Galactic Gray

VENTILATED FRONT SEATS

CARGO TO GO

Elantra GT's interior design offers more total volume and maximum cargo capacity than Ford Focus, Mazda3 and VW Golf models. With up to 51 cubic feet of space with the rear seats folded down, it even has more cargo capacity than the Nissan Juke.¹ The rear seats split 60/40, and the seats fold flat to create an ideal cargo space for handling large packages or your weekend sporting gear with ease.

VENTILATED FRONT SEATS

In a first for any car in its segment, Elantra GT offers available ventilated front seats. Cool air circulates through perforations in the seat trim, allowing both front-seat occupants to enjoy a more comfortable ride, even after long hours on the road.

PANORAMIC SUNROOF

With an available panoramic sunroof, Elantra GT opens up wide to the sky above, letting light shine down into its spacious cabin. The pleasure is exquisite, whether it's a shining sun or the nighttime glow of the moon and stars.

NEW VALUE EDITION

Want the finer things in life for less? Check out everything the 2017 Elantra GT Value Edition offers: A Proximity Key with push button start. A leather steering wheel and shift knob with leather seating surfaces. Those front seats? They're heated, and the driver enjoys a power seat with power lumbar and an auto-up window. The long list of extras also includes foglights, auto headlight control and a sliding center armrest. Feels good just thinking about it. Feels even better when you realize what you'll save.

¹ Standard on Elantra Limited and Eco models, available on Elantra SE and GT. ² All SiriusXM services require a subscription, sold separately by SiriusXM after a three-month trial subscription. Fees and taxes apply. All fees and programming are subject to change. To cancel, please call 1-866-635-2349. See our Customer Agreement for complete terms at siriusxm.com. ELANTRA INNOVATION

ALL CARS ARE GETTING SMARTER. ELANTRA IS JUST GETTING THERE SOONER.

You've already read about how the all-new Elantra is designed to help people drive with greater levels of performance, efficiency, comfort and safety. It's also designed so you can be better informed and entertained. For starters, your smartphone and your Elantra are now on better speaking terms than ever. Our 2017 models allow you to seamlessly sync your smartphone's content and apps like Pandora® to the center console's 7" LCD screen.¹

Add the available navigation on our Limited model, and an 8" split-screen display shows both maps and music settings – including HD Radio™ and SiriusXM Satellite Radio.² The navigation system also includes voice commands and junction view lane guidance.

Speaking of life in the fast lane, we've made improvements to the latest generation of Hyundai Blue Link, too. Our dynamic Connected Car System combines safety, car care and remote functionality to help Elantra owners simplify their lives. Who says you can't download more time into your day?

Infinity®

CLARI-FI™
Music Restoration Technology

SiriusXM®
SATELLITE RADIO

STAY IN SYNC

Elantra supports Apple CarPlay, the smarter, safer way to use your iPhone in the car. Make calls, listen to Apple Music, send messages and get directions with Siri or through Elantra's touchscreen. Elantra also supports Android Auto, which lets you use your compatible Android phone to help access Google Maps, listen to music from the Google Play store, and more.³

CLARI-FI YOUR MUSIC

Elantra Limited is the first in its segment to offer Clari-Fi™ Music Restoration Technology. Today's downloaded or streamed music is digitally compressed – removing up to 90 percent of the audio details originally recorded in your favorite songs. Music that's been 'Clari-Fied' sounds clearer, crisper and more dynamic. So now, when you listen to your music through Elantra's available Infinity® 8-speaker premium audio system, it's more faithful to the original recording.

NEVER MISS A BEAT

Here's a feature music lovers will appreciate: TuneStart. A select number of preset SiriusXM channels allow you to rewind to the beginning of a song whenever you switch channels. No more catching it mid-song and missing half the fun.⁴

REMOTE ACCESS

Elantra Limited now comes standard with the next generation of Blue Link. As part of Blue Link, you can use an app to remotely start, stop and set the climate controls of your car. The Remote Start function now includes a timer that lets you set how long you want the engine to run. And Remote Climate Control now gives you the option to turn on the front window defroster before you get into your car.⁵
