Additional resources for KS3 and KS4 are available under certain topics on the right hand menu as well as on the Worksheet Boxer. This page includes paperwork to help revision pupils at Key Stage 3. There are test papers, paperwork on ratio and scale, symmetry, percentage, algebra, formula, net, indicators, GCSE review paper, sequence and mixed paper. Work through paperwork covering mathematical areas where pupils need review. Students should be encouraged to ask someone to discuss with them any concerns that they may have... Math teachers will want their pupils to do as well as possible as well! For guidance on teaching methods and how mathematics is taught in school, please see the menu on the right. Mental mathematics is often included in many mathematical exams. It is important that children can calculate quickly and accurately in many aspects of life for example how much change they need to get from the store; how much time they left to arrive on time, and how to be able to read the timetable. You may find it useful to help your little boy with rhythms like '1 2 3 4 5, as soon as I catch live fish'. Real money can be used to do shopping pretending to include asking for the right changes. For example, Here's 10p. The book is 5p so how many changes should you get? There are so many opportunities for side learning to develop mental math skills, so be alert and make sure you use this opportunity. More work demons are available at Finder Worksheet under SATS paper. (Fun KS3 Mathematics review quiz to teach students in Year 7, Year 8, and Year 9) Mathematics. Calculator language. Village home numbers. However you like referring to Math, one thing is really positive - you need to know. All your time at KS3, you will be reminded of the importance of keeping mathematics. We hate to make the most of it, but it is important dupe. The problem with Mathematics is that you just have to miss a few main topics and you'll be more confused than the ass in a spelling hole. Keeping on top of everything you learn in class is a must. That way, when you progress to a new topic, you'll have a firm understanding of previous topics to fall back on. How you can above the entire Maths silka? It's pretty one task, but fortunately we have mathematics quizzes for topics covered in Year 7, Year 8 and Year 9. This means you're sorted for the rest of KS3! Problems are solved. Listen to the ears in the existing future Mathematics genius. Here's what you're going to learn... We will give you a comprehensive overview of the Algebra, including messages, power, factors, expressions and more. Then we will see Data Handling (you know, collect/record data and pesky frequency diagrams). Next is a close look at the numbers - decimals, percentages, rounds, spot values, a lot! We will also teach you all about shapes, including Pythagoras Theorem and other juicy stuff. We cover all levels. You can progress through our quizzes at your own pace – although that means going to old topics to refresh them in your memory, or spy on new topics to get used to before you close them in class! Thankfully, we teach you all these things without making you sleepy. Right, we feed all this Mathematical knowledge into your brain the way you're really going to enjoy! We have taken all the core bits from the National Curriculum of Mathematics and whines them to engage and flaunt the quizzes. Ready to get started? The numbers here we come! 3, 2, 1... To find out all available to know about this curriculum, our Key Stage 3 (KS3) articles will inform you. Page 2 11-Plus quizzes written by teachers for years 3, 4, 5 and 6 curriculum. Say goodbye to the monotony work and say hello to faster and more effective reviews. As a member of the Education Quiz, did you know that you get free access to 11+ Oral Thought and Non-Verbal Thought courses? With schools not teaching these important subjects, it is a great way to increase your child's chances of exams without having to hire an expensive tutor. For an overview of all 11-Plus roundups, see what page is 11+. The 11-Plus exam has many names - 11 Plus, 11+, Eleven +, Eleven + and even Eleven Plus. Whichever you choose, it is the first important exam in the educational life of the child. But don't worry! Practice can be rewarding and effective. The quizzes in our 11-Plus section are written by experienced teachers, with the specific purpose of providing children for their exams and continuous education in grammar schools. Find out all that is available to learn about schoolchildren in Primary School with a few minutes to read the Children's Curriculum of Primary and Curriculum Schools Primary School Explained. For all the 11+ exam sitters: Don't worry, you have this! We know your results will determine which secondary school you're going to attend and what potential implications bring – which is why we're here to offer consistent and quality support. Eleven Plus For Parents To Feel Brave, parents? Father? 11 Grammar School Admissions Exam Plus gives a good indication of the complexity of 11-Plus. Do your best!* *It is better not to tell your kids that you are taking the test until after you do it. You know, should you fail miserably. 11-Plus In past UK Years, almost all children in England, Wales and Northern Ireland sit 11-Plus tests - some mums and dads will probably remember doing it! Many education authorities have now decided to use it. So, how do you know if it applies to you? As a general guide, 11-Plus is still used in Buckinghamshire, Essex, Kent, Lincolnshire and North Yorkshire, but it's better to check with your primary school to see if the exams are still going to happen. You may also want to read our extensive Knowledge Bank articles that go into detail where districts and regions use 11+. Revision For 11-Plus Test Our Quiz covers the necessary learning for all local authorities but you should check which subjects need to be covered. Children aren't necessarily required to sit papers in all 5 categories (woohool) so it's better to ask primary school to know which categories of pupils need to be looked back. For 11-Plus, maths and English categories are important for a solid foundation. Oral reasons and non-verbal reasons and reasoning quizzes, however, are not always required. 11 Plus DIY Quiz 11-Plus is slightly more challenging than the KS2 quiz, although both are intended for children aged 7 to 11. It is better for pupils to work through the KS2 quiz first (consider it warm!) before moving on to our slightly tougher quiz 11+. Learning through quizzes is a fun way to learn, especially when it is done in such a way that children do not realize that they learn! - Siân, Master Reviewer Preparation for 11 Plus Exams As mentioned above, to prepare your child for the examination prudent to get started. As well as the Education Quiz, there are plenty of options on BBC Bitesize. Oral (VR) And Non-Verbal (NVR) Messenger Both subjects are complicated. It's worthwhile to spend some time as parents get to grips with their own before helping your child. Non-verbal dictation questions can be puzzles, but when you have the basics of how they work, you don't have to have a problem. As well as our quizzes, we also have questions on oral and non-verbal Accounting examinations, answers and explanations. This was written by an eleven plus expert who knew sticking eye children would probably find. They are an absolute must when it comes comprehensive practice, preparation and understanding of the subject. Oh, and we know the revisions can take a lot of brain power. That's why we have a cup of Tea section with interesting quizzes about nature, people, gardening Book. You know, for a bit of light relief. Grammar School Exams If you want to see deeper on Test 11 Plus, see Wikipedia Page. There are links on the page that list grammar schools in England and Northern Ireland. For a full list of grammar school testing areas, visit the 11plus Guide. It also lists grammar schools by district, including Yorkshire grammar schools, Kent grammar schools, Lincolnshire grammar schools and London grammar schools. Subscribe to a 11+ Exam Subscription To give your child the best chance to go to grammar schools, subscribe for just £9.99 a month or £49.99 a year to receive immediate access to all our quizzes. No contract, no obligation. You can also track which quiz has been played, as well as scores. Take the first step to be more confident in the 11-Plus revisions, practices and preparations.
