Administrative Staff College of India

# COVID-19 Pandemic ...A Brief Narrative

**1. What is COVID 19 :** Coronavirus (COVID-19) is also known as SARS-CoV-2, 2019 Novel Coronavirus, nCov COVID-19 is an illness that can affect lungs and airways. The strains of the coronavirus have caused outbreaks such as severe acute respiratory syndrome (SARS) and middle east respiratory syndrome (MERS) earlier.

**2. How and when it emerged :** The current strain is a zoonotic virus first popped up on global radar in December 2019, after it was first detected in Wuhan City, in the Hubei province of China. Initially, the virus existed in animals but was transmitted to humans. Open markets are believed to be part of the transmission where livestock is close to food and people with that kind of market setup.

**3. Symptoms :** Most common symptoms are fever, tiredness, and dry cough. Symptoms may appear 2-14 days after exposure and vary in severity.

**4. Treatment :** There's no specific treatment for coronavirus (COVID-19). People with COVID-19 should receive supportive care to relieve symptoms. Currently there is no vaccine to prevent the disease.

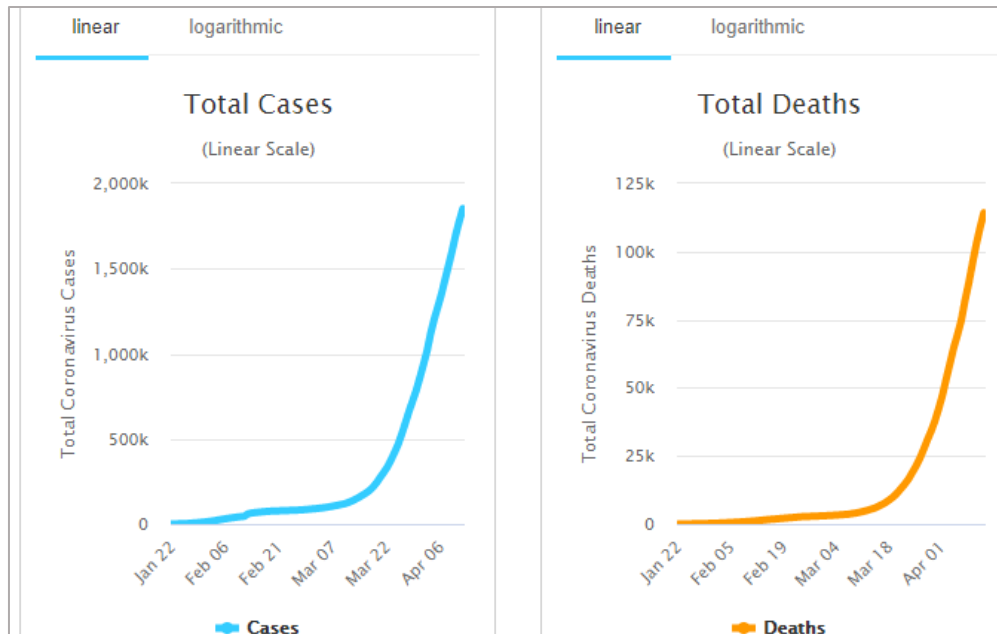

**5. Spread :** The disease spreads from person to person through small droplets from the nose or mouth when a person infected coughs or exhales. People can also catch COVID-19 by touching objects or surfaces (where droplets land), then touching their eyes, nose or mouth.

**6. Measures :** Simple measures like washing your hands often with soap and water and maintaining social distancing can help stop coronavirus spreading.

# COVID-19 ...the Spread and Devastation

The Corona virus has spread in more than **210 countries** and **6 continents** and territories across the globe effecting millions of people causing several deaths. Billions of people around the planet are in lockdown situation as even developed countries are struggling to cope up with health services. The corona virus outbreak has been declared as a **Public Health Emergency of International Concern (PHEIC)** by the **World Health Organisation**. The risk is compounded to health and sanitation workers at the front-lines of the epidemic. As Covid19 spreads the global impact to the economy also continues to evolve at an unprecedented speed.

# Greater Warangal ... a glance

Parameters	Greater Warangal
Households (Number)	3,00,000
Population (Number)	10,00,000
Area (sq. km)	407
Wards (Number)	58
Slums (Number)	183
Slum Population (Number)	37%
Road Network (km)	2775
Literacy (%)	83.30
Type of Covid Zone	Red
No. of. Covid confirmed cases	26
No.of.Suspects quarantined	462

**Red Zone Areas in GWMC :** Julaiwada, Subedari, Eidgah, Kumarpally, Mandibazar, Pochamma Maidan, Char Bowli, Kashibugga, Ganesh Nagar, Nizampura, Lamipuram, Rangampet, shambhunipet, Bapujinagar, Chintagutta

## **Sanitation Initiatives by Warangal City**

# Cure for Corona – by the Multispecialty Sanitation Warriors

## Sewer cleaners

Unblocking and cleaning open drains, sewer and wastewater drains with risk of encountering fecal matter

## Garbage Collectors

collecting garbage could come into contact with numerous hazardous materials vulnerable to their health

## Toilet cleaners

maintaining public/community toilets often insanitary have the risk of succumbing to bacterial infections

## Sweepers

road sweeping, often encountering fecal matter due to open defecation and insanitary latrines connected to drains

## Desludgers

Emptying, collection and transport of human waste from septic tanks on an on-demand basis

## Housekeepers

Cleaning and disinfecting surface, floors, public areas

**In these times of devastation where the world's highest professional medical fraternity and research is struggling to cope up with the infected Corona virus in humans, the multispeciality warriors are giving us a hope. Yes, you read it right, the SANITARY WORKERS in the current situation, are more valuable than those highly qualified doctors combating and destructing the Corona virus before even inflicting into the humans contributing to preventive cure. PREVENTION IS THE HOPE WHERE THERE IS NO CURE.**

# Leadership - Gratitude to Sanitation Workforce

appreciation and  
gratitude to the  
frontline warriors

Mayor of Warangal

The government announced special incentives to each sanitation worker in the Greater Warangal Municipal Corporation GWMC and their counterparts in municipalities and village Panchayats. The GWMC has 2500 sanitation workers including employees.

- All regular and outsourced Sanitation Employees/personnel of all Municipal Corporations and Municipalities @ Rs.5,000/-.
- All regular and outsourced Sanitary cum Multi Purpose Workers of Gram Panchayats @Rs.5,000/-.

# Leadership – Recognising Sanitation Champions

## Kazipet

**Door to Door collection sanitary workers were thanked and given essentials as a token of appreciation from kids**

# Leadership – Motivating and Monitoring

best out of waste ... Mascot with a Mask

A teddy bear dumped in the garbage has become a Mascot advocating wearing of mask

Together we win .. officials & sanitary workers

# Safety in Sanitation ... not a norm now but a mandatory culture

## Personal Protective Equipment

PPE is clothing designed to reduce exposure to chemical, biological, and physical hazards risk

**PPE for preventive protection**

**The district officials mandating the use of protective equipment and hygiene**

**Sanitation workers cleaning hands with sanitizer after work**

# Social Distancing ... at public and community toilets

Following the discipline..  
Community toilets at the  
Christian Colony, Warangal

Physical distancing..  
Community toilets at the  
Pothananagar, Warangal

# Social Distancing ... at the market places

**maintaining  
social distance  
at the grocery  
store in  
Hanamkonda**

**Leaders bringing  
awareness to the  
citizens at  
kashibugga**

**PDS distribution in a planned manner at Hasanparthy**

# Procurement of Personal Protective Gear

**Personal Protection Equipment** : The state government is building enough stocks and adding up of PPE and other safety equipment to last comfortably for the entire cycle of the present coronavirus outbreak in Telangana. Realising that there is a shortfall of PPE equipment and masks from China, which is the largest exporter of such equipment, the State government has tied up with **local manufacturing companies** in Tamil Nadu and other States that will supply PPE and N95 masks in the coming weeks.

It has placed orders for **five lakh Personal Protection Equipment (PPE) kits** and **five lakh N95 masks** for healthcare and sanitary workers who are in the forefront in combating coronavirus. The government consulted distributors and manufacturers of medical equipment across India and placed orders for **procuring two crore surgical masks** and **one crore medical gloves** for government doctors and nurses. The orders for **3.5 lakh coronavirus testing kits** and **five lakh special safety eye-glasses** were also placed.

**Greater Warangal Municipal Corporation** has procured **3000 cotton cloth masks** prepared by **Central Prison** for distribution, in our fight against [COVID19](#). These can be easily washed with Hot water, Disinfectant, Sun dried and reused.

# Initiatives by SHGs, NGOs & Volunteer Groups

## Self Helps Groups

Balavikasa arranging for dry rations and groceries and sanitizers worth Rs 2.2 lakhs for 400 members of the transgender community, rightly choosing to serve a very vulnerable group.

## Volunteer Groups .. proactiveness

**Women Volunteer Groups proactive in reaching out to various shelter homes, orphanages - gathering & distributing supplies.**

The Self Helps Groups (SHGs) across the State are doing their bit in the fight against Covid-19 by stitching a bunch of masks every day. This is to overcome the shortage of face masks and increase their supply to sanitation workers and other frontline workers free of cost. The **TS Mission for Elimination of Poverty in Municipal Areas (MEPMA)** has been assigned the task of supervising the initiative. In every district, there are about 10 groups. Their target is stitching more than 4,000 masks, which are easy to wear and reusable.

# Initiatives by SHGs, NGOs & Volunteer Groups

**Hitah Seva Society  
donating groceries to  
Amma Old-age &  
orphanage**

**Face shields donated by  
Dr. Shanta Thoutam**

**GWMC Women's Team distributing free hot cooked  
meals to various shelter homes, orphanages**

**Channeling  
donor  
contributions**

**Marwadi Samaj of Warangal serving food to 1500  
needy people everyday during this lockdown.**

# Waste Management

- special care in disposing waste from quarantined households.
- to provide quarantine households with specially-marked yellow non-chlorinated garbage bags
- waste generated from quarantined houses would be treated hazardous bio-medical waste.
- collected in separate collection vehicles and transported separately, and the vehicles would be thoroughly disinfected every day.
- ensure proper disposal of such waste only through incineration
- In case the incineration facilities are unavailable, these waste should be buried in a deep pit as a last resort, so that they cannot contaminate any other surface.
- sanitary staff involved in the collection and transportation of the hazardous waste should be provided with personal protective kits every day.
- before leaving for collection of waste and after returning to their duty station, every sanitary staff would be subjected to thermal checking.
- sanitary staff should deposit their used masks and gloves at a designated, cordoned-off area and such used protective gear should be treated as hazardous waste, to be disposed of through incineration.

## Environmental cleaning, disinfection and bio-medical waste management

Category	Type of bag/container	Type of waste	Treatment disposal options
<b>Yellow</b>	Non chlorinated colour coded bags in coloured bins  Separate collection system leading to ETP	<ul style="list-style-type: none"> <li>• Human anatomical waste</li> <li>• Animal anatomical waste</li> <li>• Soiled waste</li> <li>• Expired or discarded medicines</li> <li>• Chemical waste</li> <li>• Micro, biotech &amp; clinical lab waste</li> <li>• Chemical liquid waste</li> </ul>	Incineration/deep burial
<b>Red</b>	Non chlorinated plastic bags in coloured bins/containers	Contaminated waste (recyclable) tubing, bottles, urine bags, syringes (without needles) and gloves	Auto/micro/hydro and then sent to recycling
<b>White</b>	Translucent, puncture, leak & tamper proof	Waste sharps including metals	Auto/dry heat sterilization followed by shredding /mutilation/encapsulation
<b>Blue</b>	Water proof card board boxes/containers	Glassware waste	Disinfection or auto/micro /hydro then sent to recycling

\*Disposal by deep burial is permitted only in rural or remote areas where there is no access to common bio-medical waste treatment facility. This will be carried out with prior approval from the prescribed authority

### Illustrated Guide

Compiled by Administrative Staff College of India, 2020

## **Sanitation Initiatives by the State**

# Leadership - Gratitude to Sanitation Workforce

The government announced special incentives to each sanitation worker in the Greater Hyderabad Municipal Corporation (GHMC), Greater Warangal Municipal Corporation (GWMC) and Hyderabad Metro Water Supply (HMWS) and their counterparts in municipalities and village panchayats.

The state government had taken the decision to express their gratitude to the work being done by the staff in ensuring that sanitation is maintained and the spread of the disease is curbed.

The state has 95,392 sanitation workers including employees of GHMC and HMWSSB. In GWMC there are 2600 workers

An incentive to the employees of the Medical and Health Department was also announced in recognition of their services in combating the coronavirus.

- i. All regular, Contract and Outsourced staff members of Medical and Health department, @10% of their gross salary/remuneration.
- ii. All regular and outsourced Sanitation Employees/personnel of GHMC @ Rs.7,500/-
- iii. All regular and outsourced Water Supply Linemen and Sewerage Workers of HMWS&SB @ Rs.7,500/-.
- iv. All regular and outsourced Sanitation Employees/personnel of all Municipal Corporations and Municipalities other than GHMC @ Rs.5,000/-
- v. All regular and outsourced Sanitary cum Multi Purpose Workers of Gram Panchayats @Rs.5,000/-.

**appreciation and gratitude to the frontline warriors**

# Leadership - Funding for Sanitation ... prudent decisions

The Principal Secretary, MA&UD issued instructions not to compromise with sanitation maintenance in view of the coronavirus threat.

## Release of funds for sanitation

The State Government has released funds to the tune of **Rs.181.50 crore** under the Land Regularisation Scheme (LRS) to the five districts under the HMDA limits and has directed district authorities to **intensify sanitation measures**.

The state government has released fund of **Rs.70 Lakh** to GWMC.

For the safety of sanitary workers and employers, sanitizers, radium jackets, gloves and masks were made available at all attendance places in all GWMC offices. Officials were directed to ensure all the sanitation workers wear the safety personal protection equipment.

## intensifying sanitation measures

State and District COVID-19 control room numbers have been added to the WhatsApp Chatbot.

Please send Hi or Hello or COVID to **9000 658 658** to start the conversation.

MinisterKTR

# Support Centres / Digital Technologies

## WhatsApp Chatbot – TS Gov COVID Info

Telangana Government launched its official WhatsApp Chatbot – TS Gov COVID Info (on +91-9000658658) – as part of its efforts to provide authentic information to citizens on the Coronavirus/ COVID-19 pandemic.

The Government of Telangana has partnered with WhatsApp to establish a dedicated Coronavirus helpline for citizens to receive accurate and verified information on the pandemic.

# Monitoring Mechanisms

## COVID -19 Monitoring System App

Government of Telangana deployed India's first **automated monitoring app** developed by Vera Smart Healthcare to identify, undertake live surveillance, track, monitor, and provide real-time analytics to the Health Department.

The system empowers each health-caller to **handle 1500+ calls** and simple chatbot interaction every day with a patient to ensure that the symptomatic or confirmed 'positive', quarantined and is under treatment, helping to strengthen the COVID contacts outreach significantly.

The vital features of the app is **Geotagging** and **GPS tracking** of the home quarantined person, to ensure that he/she is not breaching the law of quarantine. With instant trace and trackability, accurate information is pushed to the authorities even if there is a breach.

## COVID -19 Monitoring System – Touch Points

- PHC sub-center** – Around 4800 in number, receive data from the ASHA workers, push them to the next level.
- PHC** – Public Health Centre, 886 in the state, flows out the data to the District Medical Health Officer.
- DMHO** – The officer-in-charge takes charge of the situation in the respective districts by following the concerned hierarchical officer at the Health Department, to whom the data is transmitted.

# Monitoring Mechanisms

**24 x 7  
Command  
Control  
Centre**

The state government sets up a command control centre at Koti to handle the coronavirus crisis under the chairpersonship of Health Minister. This centre is operational 24x7 and we will be monitoring the situation. The Health Minister, Chief Secretary, Commissioner of Public Health and Family Welfare are part of the Command Control Centre.

There are four committees formed to monitor and handle the crises and will be headed by Senior IAS Officers

- ✓ hospital management committee;
- ✓ surveillance committee;
- ✓ information, communication and education committee;
- ✓ procurement committee

## **Other initiatives by the State**

# Social Distancing ... the State's measures

Social distancing or physical distancing is deliberately increasing the physical space between people to avoid spreading illness. Staying at least six feet away from other people lessens your chances of catching COVID-19.

## Complete Lockdown :

a state of isolation or restricted access instituted as a security measure.

The state has announced a complete lockdown in the state till April end in view of the coronavirus outbreak.

- all **state borders** have been **sealed** other than for movement of essential and perishable commodities
- all **public transport services** including TSRTC buses, SETWIN, Hyderabad Metro, taxis, auto-rickshaws **not permitted**.
- citizens were requested to **stay at home** and come out only for permitted activities while strictly observing social distancing norms during specific hours.
- quarantine persons shall strictly observe the same failing which he/she will be liable for penal action and shifted to government quarantine

**Token System :** State has introduced a system of issuing tokens with time slots to card holders, so that they don't gather at the fair price shops and come as per their allotted time. School buildings have been utilised to keep the stock. A vehicle with audio and speaker facility is used to make announcements in villages and residential areas in the city about the fair price shop timings, token system, time slots and other necessary norms to be followed.
