

# RESPONSE TO COVID 19

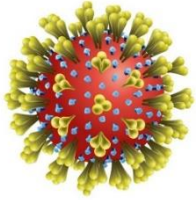

## SAFELY MANAGED SANITATION

### Good Practices by Narsapur, Andhra Pradesh State

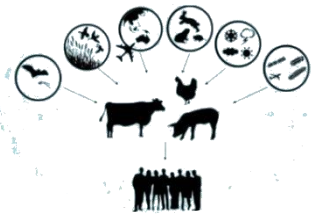

Compiled by  
Administrative Staff College of India

# COVID-19 Pandemic ...A Brief Narrative

**1. What is COVID 19 :** Coronavirus (COVID-19) is also known as SARS-CoV-2, 2019 Novel Coronavirus, nCov COVID-19 is an illness that can affect lungs and airways. The strains of the coronavirus have caused outbreaks such as severe acute respiratory syndrome (SARS) and middle east respiratory syndrome (MERS) earlier.

**2. How and when it emerged :** The current strain is a zoonotic virus first popped up on global radar in December 2019, after it was first detected in Wuhan City, in the Hubei province of China. Initially, the virus existed in animals but was transmitted to humans. Open markets are believed to be part of the transmission where livestock is close to food and people with that kind of market setup.

**3. Symptoms :** Most common symptoms are fever, tiredness, and dry cough. Symptoms may appear 2-14 days after exposure and vary in severity.

**4. Treatment :** There's no specific treatment for coronavirus (COVID-19). People with COVID-19 should receive supportive care to relieve symptoms. Currently there is no vaccine to prevent the disease.

**5. Spread :** The disease spreads from person to person through small droplets from the nose or mouth when a person infected coughs or exhales. People can also catch COVID-19 by touching objects or surfaces (where droplets land), then touching their eyes, nose or mouth.

**6. Measures :** Simple measures like washing your hands often with soap and water and maintaining social distancing can help stop coronavirus spreading.

# COVID-19 ...the Spread and Devastation

The Carona virus has spread in more than **210 countries** and **6 continents** and territories across the globe effecting millions of people causing several deaths. Billions of people around the planet are in lockdown situation as even developed countries are struggling to cope up with health services. The carona virus outbreak has been declared as a **Public Health Emergency of International Concern (PHEIC)** by the **World Health Organisation**. The risk is compounded to health and sanitation workers at the front-lines of the epidemic. As Covid19 spreads the global impact to the economy also continues to evolve at an unprecedented speed.

# **Sanitation initiatives by Narsapur Municipal Council**

# Cure for Carona – by the Multispecialty Sanitation Warriors

## Sewer cleaners

Unblocking and cleaning open drains, sewer and wastewater drains with risk of encountering fecal matter

## Garbage Collectors

collecting garbage could come into contact with numerous hazardous materials vulnerable to their health

## Toilet cleaners

maintaining public/community toilets often insanitary have the risk of succumbing to bacterial infections

## Sweepers

road sweeping, often encountering fecal matter due to open defecation and insanitary latrines connected to drains

## Desludgers

Emptying, collection and transport of human waste from septic tanks on an on-demand basis

## Housekeepers

Cleaning and disinfecting surface, floors, public areas

**In these times of devastation where the world's highest professional medical fraternity and research is struggling to cope up with the infected Carona virus in humans, the multispeciality warriors are giving us a hope. Yes, you read it right, the SANITARY WORKERS in the current situation, are more valuable than those highly qualified doctors combating and destructing the Carona virus before even inflicting into the humans contributing to preventive cure. PREVENTION IS THE HOPE WHERE THERE IS NO CURE.**

# Leadership - Gratitude to Sanitation Workforce

**appreciation and  
gratitude to the  
frontline warriors**

The government announced special incentives to each sanitation worker in the state.

- ✓ 50 lakh insurance premium for sanitary workers under COVID19 combat
- ✓ Special recruitment drive for doctors, supporting staff, sanitary workers in the state

**PPE distribution by  
MOA and  
Commissioner**

**Rs.2000/- incentives  
provided to the  
sanitation workers**

**Health checks for  
sanitary workers**

# Leadership – Recognising Sanitation Champions

#AndhraFightsCorona #Mudunuri\_Prasad\_Raju

**Private School Association donated 1lakh rupees to MLA for 165 days free food supply programs to Health, Sanitation and Police staff in Narasapuram.**

# Leadership – Motivating and Monitoring

**Narsapur MLA briefing with the sanitation workers at the municipal office in the morning at 5 am**

**Administrative Staff College of India (ASCI) Team presentation to the MLA on Covid Management**

# Leadership – On the Field

**Municipal commissioner on field on random verification of Household survey**

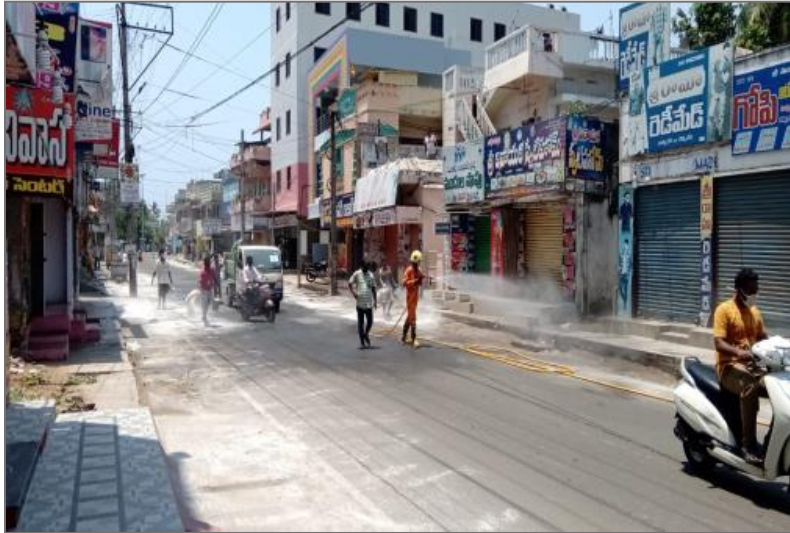

**The legislative member taking ownership of with sanitizing activities along with concerned officials**

# Sanitization of Public Places ... disinfecting the public areas

**Cleaning of  
Community Toilets,  
Public Toilets with  
anti-bacterial  
powders  
Rustumbad, Near  
Jaganadha swamy  
temple**

**Spraying and  
Sprinkling  
disinfectants in the  
Park road and main  
Market**

# Sanitization of Public Places ... disinfecting the public areas

**Spraying disinfects in every household and public utility areas**

**In the wake of COVID-19 threat, the authorities have initiated measures to sanitize the spread of the pandemic in the government health facilities**

# Safety in Sanitation ... not a norm now but a mandatory culture

**Aprons, Shoes, gloves, masks and sanitizers being distributed to the sanitation workers in the wards for their safety. Ward Secretariat level motivation meetings organized for sanitation worker ensure safety.**

**Sanitation workers following the safe measures wearing **Personal Protection Equipment (PPEs)** during spraying and other activities**

# Social Distancing ... at public utility areas

**Discipline at  
Community Toilets**

**Community and Public toilets were open round the clock with all amenities – soap, running water and lighting and safety. Social distancing ensured at toilet facility.**

# Social Distancing and community level initiatives

**Social distancing at shelter and old age homes**

**All the regular vegetable markets were closed down and markets were shifted open spaces Siklie High school ground**

# Procurement of Personal Protective Gear

**Personal Protection Equipment :** The Andhra Pradesh government has directed the officials to distribute **16 crore** face masks free of cost as a preventive measure in the wake of the coronavirus outbreak (Covid-19).

As per the decision, each of the **5.3 crore** people in the state will get three face masks free of cost. The distribution of masks should be completed as early possible to arrest the spread of the virus, the Chief Minister said

## Launch of Rapid test kits at Tadepalli camp office

The government imported one lakh Rapid test kits from South Korea in a special flight. The test kits give results within 10 minutes.

# Initiatives by SHGs, NGOs & Volunteer Groups

**Free meal distribution in  
Arundathipeta**

**Distribution of essentials to  
poor households by Sankranthi  
NGO in YSR colony**

**Vegetable distribution in  
Gandhinagar**

**Ration distribution by Rotary club at  
Ponnalli Area**

**Fruits distribution by NGOa in  
Lakshmaneswaram Sahaya NGOs**

**Distribution of essentials in the poor  
settlements Stationpeta**

# Waste Management

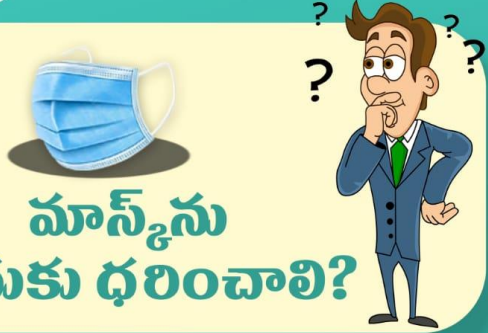

- special care in disposing waste from quarantined households.
- to provide quarantine households with specially-marked yellow non-chlorinated garbage bags
- waste generated from quarantined houses would be treated hazardous bio-medical waste.
- collected in separate collection vehicles and transported separately, and the vehicles would be thoroughly disinfected every day.
- ensure proper disposal of such waste only through incineration
- In case the incineration facilities are unavailable, these waste should be buried in a deep pit as a last resort, so that they cannot contaminate any other surface.
- sanitary staff involved in the collection and transportation of the hazardous waste should be provided with personal protective kits every day.
- before leaving for collection of waste and after returning to their duty station, every sanitary staff would be subjected to thermal checking.
- sanitary staff should deposit their used masks and gloves at a designated, cordoned-off area and such used protective gear should be treated as hazardous waste, to be disposed of through incineration.

## Environmental cleaning, disinfection and bio-medical waste management

Category	Type of bag/container	Type of waste	Treatment disposal options
<b>Yellow</b>	Non chlorinated colour coded bags in coloured bins  Separate collection system leading to ETP	<ul style="list-style-type: none"> <li>• Human anatomical waste</li> <li>• Animal anatomical waste</li> <li>• Soiled waste</li> <li>• Expired or discarded medicines</li> <li>• Chemical waste</li> <li>• Micro, biotech &amp; clinical lab waste</li> <li>• Chemical liquid waste</li> </ul>	Incineration/deep burial
<b>Red</b>	Non chlorinated plastic bags in coloured bins/containers	Contaminated waste (recyclable) tubing, bottles, urine bags, syringes (without needles) and gloves	Auto/micro/hydro and then sent to recycling
<b>White</b>	Translucent, puncture, leak & tamper proof	Waste sharps including metals	Auto/dry heat sterilization followed by shredding /mutilation/encapsulation
<b>Blue</b>	Water proof card board boxes/containers	Glassware waste	Disinfection or auto/micro /hydro then sent to recycling

\*Disposal by deep burial is permitted only in rural or remote areas where there is no access to common bio-medical waste treatment facility. This will be carried out with prior approval from the prescribed authority

# Information, Education & Communication Campaigns (IEC)

**మాస్క్ను ఎందుకు ధరించాలి?**

**COVID-19** వైరస్ వ్యక్తి నుండి మరో వ్యక్తికి సులభంగా వ్యాపించగలదు. కరోనా వైరస్ సోకిన వ్యక్తి నుండి గాలిలో ఆ వైరస్ ద్రవరూపంలో ఉండే కణాల ద్వారా మన శ్వాసకోశ వ్యవస్థలోకి ప్రవేశించే అవకాశాలను మాస్కులు తగ్గిస్తాయి.

# Monitoring Mechanisms ... Daily Surveillance

**Leaders conducting review with ward secretariat**

**MLA, DSP , Commissioner and sub collector conducting review with Municipality and health facility staff**

**Ward volunteers are being carrying out household survey to identify symptomatic cases on every day. Every day all the households in the town were visited by 300 volunteers**

# Monitoring Mechanisms

## 24x7 Command Control Centre

The state government sets up a command control centre at CRDA, Vijayawada to handle the coronavirus crisis under the chairpersonship of Health Minister. This centre is operational 24x7 monitoring the situation. The Health Minister, Chief Secretary, Commissioner of Public Health and Family Welfare are part of the Command Control Centre.

There are four committees formed to monitor and handle the crises and will be headed by Senior IAS Officers

- ✓ hospital management committee;
- ✓ surveillance committee;
- ✓ information, communication and education committee;
- ✓ procurement committee

## **Other Initiatives by the State and Narsapur**

# Leadership - Gratitude to Sanitation Workforce

**The government announced special incentives to each outsourced sanitation workers in the state**

**The state government had taken the decision to express their gratitude to the work being done by the staff in ensuring that sanitation is maintained and the spread of the disease is curbed.**

**An insurance to the employees of the Medical and Health Department, Sanitation workers was also announced by the Govt. of India in combating the coronavirus.**

- i. All Contract and Outsourced staff members of Public health Department @6000 as occupational health allowance per month.
- ii. 50 lakh insurance premium for sanitary workers under COVID19 combat
- iii. Special recruitment drive for doctors, supporting staff, sanitary workers in the state

**appreciation and gratitude to the frontline warriors**

# Leadership - Funding ... prudent decisions

## Funding to ULBs

The Andhra Pradesh government has issued instructions to all the urban local bodies (ULBs) to take immediate steps to contain Coronavirus / Covid-19 in the state.

The government decided to set aside Rs 100 crore as an emergency fund, another Rs.240 crore of health funds would be channeled for medicines, required equipment and facilities at various hospitals. Additionally, Rs 34 crore each is allocated for Vijayawada and Ananthapuram.

## Sanitation Drives

The ULBs are instructed to conduct **special sanitation drives** at all public places such as markets, rythu bazaars, municipal schools, public toilets, parks, bus stands, railway stations and religious places. Arrangements are being made to provide sufficient stocks of disinfectants like bleaching powder, sodium hypochloride, cresol, etc.

All the fogging machines and sprayers are made functional to take up fumigation. The officials are procuring sufficient quantities of personal protective equipment such as gloves, masks, aprons, shoes, goggles, etc. to public health workers, ward volunteers, and other staff who are in surveillance activities.

District Nodal Officers are appointed to guide and monitor the activities taken up by the ULBs. Action plan has been prepared and communicated to the ULBs with detailed instructions and guidelines.

# Social Distancing ... the State's measures

Social distancing or physical distancing is deliberately increasing the physical space between people to avoid spreading illness. Staying at least six feet away from other people lessens your chances of catching COVID-19.

## Complete Lockdown :

a state of isolation or restricted access instituted as a security measure.

The state has announced a complete lockdown in the state till April end in view of the coronavirus outbreak.

- all **state borders** have been **sealed** other than for movement of essential and perishable commodities
- all **public transport services** including APSRTC buses, taxis, auto-rickshaws **not permitted**.
- citizens were requested to **stay at home** and come out only for permitted activities while strictly observing social distancing norms during specific hours.
- quarantine persons shall strictly observe the same failing which he/she will be liable for penal action and shifted to government quarantine

**Tiny tots teaching us adults  
the art of Social Distancing**

# Sanitization of Public Places ... the State's disaster response

## Spraying sodium hypochloride

**mandated in all the ULBs for preventing the spread of COVID19 by Sanitation staff.**

## Andhra Pradesh State Disaster Response and Fire Services

**Fire Tender in action**

As the State puts in all efforts to combat novel coronavirus risks, the personnel of the APDRFS have been playing a quiet role during these trying times. A few thousand personnel of the department equipped with fire tenders to use as these vehicles can hold huge amount of water and the personnel are professional in spraying using different water guns. As a priority, the fire department is visiting the hospitals, shopping malls, big commercial establishments, bus stations, railway stations and important thoroughfares across the State. Apart from disinfecting job, they have also prepared banners for public awareness and sensitising the people through audio messages.

# Door Step Services of Essentials

## Mobile ATMs

Mobile ATMs are operating in helping customers avail services at doorstep during lockdown.

AP Government is establishing Mobile ATMS in every red zones for easy accessibility

Mobile Vegetable and fruits store are operating in helping customers avail services at doorstep during lockdown.

## Essentials

# Inclusive and easy access to medication

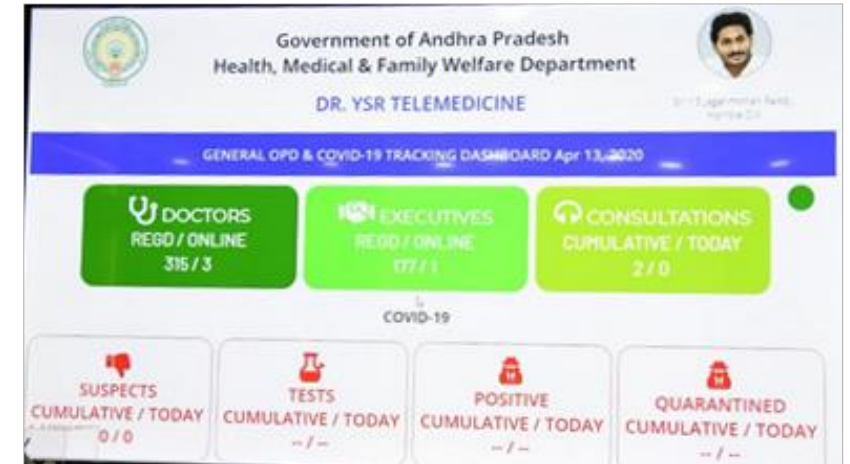

## Dr YSR telemedicine programme

The government launched the Dr YSR telemedicine programme as part of coronavirus containment measures in the state. The main objective of the government in launching this programme is to quickly identify people with suspected symptoms of coronavirus, isolate them from others and quarantine them if tested positive for COVID-19. Doctors would extend consultation to patients under OP services and prescribe medicines over telephone. The medical staff will be given internet access for this purpose. A dedicated Toll Free Number 14410 has been assigned for attending queries of people on COVID-19 and implementation of the telemedicine programme and 286 doctors and 114 executives have been made available to work on three different shifts in this programme everyday from 8 AM to 6 PM.

## YSR telemedicine programme is a three-step procedure:

<b>Step 1</b>	<ul style="list-style-type: none"> <li>✓ The patient has to make a call to toll free number 14410 and provide his or her details. IVR system will record all the details of the patient and gives an Identification number (ID) to the patient. Following which, one of the executives will call the patient and assist them further.</li> </ul>
<b>Step 2</b>	<ul style="list-style-type: none"> <li>✓ Details of the patient will be made available to doctors who will assist the patient by attending the call.</li> <li>✓ The doctor briefs the patients about the required tests and prescribes their medication over the phone call</li> <li>✓ COVID-19 suspected patients will be diagnosed basing on their symptoms and the test results.</li> <li>✓ Patients will receive all the details about treatment through an SMS.</li> <li>✓ If the patient needs to be admitted, the doctors will decide on which hospitals do they need to be admitted.</li> </ul>
<b>Step 3</b>	<ul style="list-style-type: none"> <li>✓ Details of the patient will be made available to doctors who will assist the patient by attending the call.</li> <li>✓ The doctor briefs the patients about the required tests and prescribes their medication over the phone call</li> <li>✓ COVID-19 suspected patients will be diagnosed basing on their symptoms and the test results.</li> <li>✓ Patients will receive all the details about treatment through an SMS.</li> <li>✓ If the patient needs to be admitted, the doctors will decide on which hospitals do they need to be admitted.</li> </ul>

# Procurement ... fulfilling the promises by State

**Agriculture Marketing Department**  
Govt. of Andhra Pradesh

Andhra Pradesh Agriculture Marketing Department is perhaps the first in the country to get daily price report on crop situation from each of its 11000 villages.

A screen shot showcasing the same is attached.

## The Paddy Procurement :

The government has started purchasing paddy being harvested in the rabi season just as it had announced the measure late last month in view of the ongoing lockdown. The government's intervention provides an interim platform for farmers to sell their Rabi produce at the assured minimum support price (MSP) of respective crops as all the agriculture market yards are shut as part of the steps being taken against the spread of caronavirus pandemic in the state. Farmers have sold 4,773 tonnes of paddy at different government purchase centers across Chittoor, Nellore and West Godavari districts on the first day. Maize would also be purchased. The government so far has opened 1280 purchase centers across the state. The government has instructed the procurement agencies to pay farmers within 48 hours from the date of purchase by crediting the money into their accounts.
