Limited review report

To: The Board of Directors of Edita Food Industries Company (S.A.E.) and its Subsidiaries

Introduction

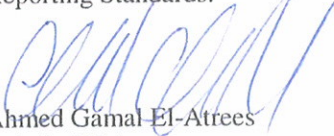

We have reviewed the accompanying consolidated interim financial statements of Edita Food Industries Company (S.A.E.) and its Subsidiaries (the Group) represented in the consolidated balance sheet as of 31 March 2016 and the related consolidated statements of Profit or loss, statement of comprehensive income, statement of changes in equity and statement of cash flows for the three months period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these consolidated interim financial statements in accordance with International Financial Reporting Standards. Our responsibility is to express a conclusion on these consolidated interim financial statements based on our limited review.

Scope of limited review

We conducted our limited review in accordance with Egyptian Standard on Review Engagements No. 2410, "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these consolidated interim financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements does not present fairly in all material respects, the financial position of the Group as at 31 March 2016, and of its financial performance and its cash flows for the three months period then ended in accordance with International Financial Reporting Standards.

2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these Interim Consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

A. Basis of preparation

These Interim Consolidated financial statements have been prepared in accordance with International Financial Reporting Standards and IFRIC interpretations applicable to companies reporting under IFRS, the financial statements comply with IFRS as issued by International Accounting Standards Board IASB.

These Interim Consolidated financial statements have been prepared under the historical cost convention.

The preparation of the Interim Consolidated financial statements in conformity with International Financial Reporting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the Interim Consolidated financial statements are disclosed in note 4.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Basis of preparation (continued)

New standards and amendments

Certain standards and interpretations apply for the first time to financial reporting periods commencing on or after 1 January 2015 which includes IFRS 8 which requires disclosure of the judgments made by management in aggregating operating segments and clarifies that a reconciliation of segment assets must only be disclosed if segment assets are reported, also the Defined Benefit Plans: Employee Contributions (Amendments to IAS 19) as The amendments clarify the accounting for defined benefit plans that require employees or third parties to contribute towards the cost of the benefits.

Certain new accounting standards and interpretations have been published that are not mandatory for the current year and have not been early adopted by the group related to:

- (i) IFRS 9 that introduces new rules for hedge accounting that made further changes to the classification and measurement rules and also introduced a new impairment model,
- (ii) IFRS 15 relates to revenue from contracts with customers this will replace IAS 18 which covers contracts for goods and services and IAS 11 which covers construction contracts.
- (iii) IFRS 16, 'Leases' addresses the definition of a lease, recognition and measurement of leases and establishes principles for reporting useful information to users of financial statements about the leasing activities of both lessees and lessors. A key change arising from IFRS 16 is that most operating leases will be accounted for on balance sheet for lessees. The standard replaces IAS 17 'Leases', and related interpretations.

The group is examining the impact of these standards in its financial statements.

B. Basis of consolidation

1. Subsidiaries

Subsidiaries are all entities (including structured) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The group recognises any non-controlling interest in the acquiring on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognized in profit or loss.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Basis of consolidation (continued)

Any contingent consideration to be transferred by the group is recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognized in accordance with IAS 39 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

Inter-company transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated. Unless the transaction provides evidence of an impairment of transferred asset. When necessary amounts reported by subsidiaries have been adjusted to confirm to the group's accounting policies.

2. Changes in ownership interests

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

3. Principles of consolidation and equity accounting

When the group ceases to have control any retained interest in the entity is remeasured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognized in other comprehensive income are reclassified to profit or loss.

C. Foreign currency translation

(1) Functional and presentation currency

Items included in the financial statements each of the group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). All entities in Egyptian Pound except for Edita Participation Limited is in Euro.

The Interim Consolidated financial statements are presented in Egyptian Pounds, which is the group's presentation currency.

(2) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss, they are deferred in equity if they are attributable to part of the net investment in foreign operations.

Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other gains and losses.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Foreign currency translation (continued)

(3) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) Monetary assets and monetary liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (b) Income and expenses for each statement of profit or loss and statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (c) All resulting exchange differences are recognized in other comprehensive income. The foreign currency exchange arising from translation of the net investment in foreign entities and loans or financial instruments in foreign currencies allocated to cover these investments are recognized in the equity in the Interim Consolidated financial statement. The foreign currencies exchange charged to the equity are recognized as part of gain or loss upon the disposal of these investments.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognized in other comprehensive income.

D. Property, plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the statements of Profit or loss during the financial year in which they are incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts to their residual value over their estimated useful lives, as follows:

Buildings	25 - 50 years
Machinery & equipment	20 years
Vehicles	5 - 8 years
Tools & equipment	3 - 5 years
Furniture & office equipment	4 - 5 years

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Property, plant and equipment (continued)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized within "other gains / (losses) in the statement of profit or loss.

E. Impairment of non-financial assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

F. Financial assets

(1) Classification

The group classifies its financial assets in the following categories, loans and receivables, and held to maturity (treasury bills). The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and in the case of assets classified as held to maturity, reevaluate this designation at the end of each reporting period.

(a) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. The group's loans and receivables comprise 'trade and other receivables' and 'cash and cash equivalents' and 'treasury bills' in the balance sheet

(b) Held to maturity investments

The group classifies investments as held-to-maturity (treasury bills) if they are non-derivative financial assets and have fixed or determinable payments and fixed maturities and the group intends to, and is able to, hold them to maturity.

Held-to-maturity financial assets are included in non-current assets, except for those with maturities less than 12 months from the end of the reporting period, which would be classified as current assets.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Financial assets (continued)

(2) Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date, the date on which the group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the group has transferred substantially all the risks and rewards of ownership.

(3) Measurement

At initial recognition, the group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset.

Loans and receivables and held-to-maturity investments are subsequently carried at amortised cost using the effective interest method.

Interest on held-to-maturity investments and loans and receivables calculated using the effective interest method is recognised in the statement of profit or loss as part of revenue from continuing operations.

(4) Impairment

The group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

For loans and receivables, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in profit or loss. As a practical expedient, the group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in profit or loss.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

G. Intangible assets

Intangible assets (Trademarks) have indefinite useful lives as there is no foreseeable limit on the period of time over which the brands are expected to exist and generate cash Flows, and are carried at cost less impairment losses. Historical cost includes all expenses associated with the acquisition of an intangible asset,

The trademark is recognized as an intangible asset as the license is perpetual, irrevocable and exclusive including the trademark in the territory in connection with the cake products, the brand has an established presence in the territory in which it is licensed to operate for over 23 years in addition the company has a strong historic financial track record and forecasts continued growth also, the knowhow and perpetual license not exposed to typical obsolescence as it relates to a food stuff. The brand remain popular in the Middle East and the company does not foresee any decline in the foreseeable future)

Intangible assets (know how) have finite useful life and is carried at cost less accumulated amortization. Amortization of intangible assets which have finite useful lives is calculated using the straight line method, know how is amortized over 25 years, the Company's management put into consideration the following factors in determining the useful lives of the intangible assets that have finite useful lives:

- The expected usage of the asset by the entity and whether the asset could be managed efficiently by another management team;
- Typical product life cycles for the asset and public information on estimates of useful lives of similar assets that are used in a similar way;
- Technical, technological, commercial or other types of obsolescence;
- The stability of the industry in which the asset operates and changes in the market demand for the products or services output from the asset;
- The level of maintenance expenditure required to obtain the expected future economic benefits from the asset and the entity's ability and intention to reach such a level;
- The period of control over the asset and legal or similar limits on the use of the asset, such as the expiry dates of related leases; and
- Whether the useful life of the asset is dependent on the useful life of other assets of the entity.

H. Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined using the moving average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity) but excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and estimated costs necessary to make the sale. And the provision for obsolete inventory is created in accordance to the management's assessment.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

I. Trade receivables

Trade receivables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Trade receivables are amounts due from customers for goods' sold in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

J. Cash and cash equivalents

In the Interim Consolidated statement of cash flows, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts and treasury bills. In the Interim Consolidated balance sheet, bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

K. Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

L. Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognized initially at fair value and subsequently measured at amortised cost using the effective interest method.

M. Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred.

Borrowings are subsequently carried at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the statement of profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

N. Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

O. Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Interim Consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The deferred tax liability in relation to investment property that is measured at fair value is determined assuming the property will be recovered entirely through sale.

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Income tax (continued)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

P. Employee benefits

(1) Pension obligations

A defined contribution plan is a pension plan under which the Company pays fixed contribution when the conditions illustrated in the Company's policy is met. The Company has no legal obligation to pay further contributions to its employees which is related to employee service in the current and prior periods. A defined benefit plan is a pension plan of the staff.

(2) Defined benefit pension plans

The Company has a defined benefit plan which is a plan that defines an amount of benefits to be provided in the form of half month payment for each year they had worked for the Company for employees who reach the age of sixty, according to the following criteria:

- The contribution is to be paid to employees for their working period at the Company only
- The working period must be not less than ten years
- The maximum contribution is 12 months salary

The liability in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date minus the fair value of plan assets, together with adjustments for actuarial gains/losses and past service cost. The defined benefit obligation is calculated annually by independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by the estimated future cash outflows using interest rates of government bonds, which have terms to maturity approximating the terms of the related liability.

Actuarial gains and losses arising from experience adjustments, changes in actuarial assumptions and amendments to retirement plans are recognized in other comprehensive income

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit or loss.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Employee benefits (continued)

(3) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. All other short-term employee benefit obligations are presented as payables.

(4) Dividends distribution

The group recognises a liability and an expense for bonuses and profit-sharing based on a formula that takes into consideration the profit attributable to the company's shareholders after certain adjustments. The group recognises an accrual where contractually obliged or where there is a past practice that has created a constructive obligation.

(5) Termination benefits

Termination benefits are payable when employment is terminated by the Group before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Group recognises termination benefits at the earlier of the following dates: (a) when the Group can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of IAS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer and in accordance with labour law. Falling due more than 12 months after the end of the reporting period are discounted to present value.

Q. Provisions

Provisions are recognized when: the group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

R. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable disclosed as revenue, stated net of discounts, returns and value added taxes. The group recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimate of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

(1) Sales of goods – whole sale

Sales of goods are recognized when a Group has delivered products to the wholesaler, the wholesaler has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the wholesaler's acceptance of the products. Delivery does not occur until the products have been shipped to the specified location, the risks of obsolescence and loss have been transferred to the wholesaler, and either the wholesaler has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed or the group has objective evidence that all criteria for acceptance have been satisfied.

(2) Interest income

Interest income is recognized using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired receivables is recognized using the original effective interest rate.

(3) Dividend income

Dividend income is recognised when the right to receive payment is established.

(4) Export subsidy

The Company obtains a subsidy against exporting some of its production. The subsidy is calculated based on a percentage from the total exports invoices determined by the Export Development Fund related to the Commercial and Industry Ministry. Export subsidy is recognized in the statement of profit or loss as other income when received in cash after meeting all required criteria.

S. Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statements of Profit or loss on a straight-line basis over the period of the lease.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

T. Dividend distribution

Dividend distribution to the Group's shareholders is recognized as a liability in the Group's financial statements in the period in which the dividends are approved by the Group's shareholders.

U. Earnings per share

(1) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Group excluding any costs of servicing equity other than ordinary shares by the weight average number of ordinary shares in issue during the year excluding ordinary shares purchase by the Group and held as treasury shares.

(2) Diluted earnings per share

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Group does not have any categories of dilutive potential ordinary shares, hence the diluted earnings per share is the same as the basic earnings per share.

V. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The board has appointed a chief operating decision-maker who assess the financial performance and position of the group, and makes strategic decisions. Which has been identified as the chief executive officer.

W. Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

3. Financial risk management

(1) Financial risk factors

The group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and cash flow and fair value interest rate risk), credit risk and liquidity risk. The group's management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the group's financial performance.

(A) Market risk

(i) Foreign exchange risk

The group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Euro and US dollar. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Financial risk management (continued)

The Company covers part of its imports of raw materials in foreign currency by local banks that the Company deals with in official rates and the rest from its exports in US Dollars

During the period / year, the following foreign-exchange related amounts were recognised in profit or loss and other comprehensive income:

	<u>31 March 2016</u>	<u>31 December 2015</u>
Amounts recognised in profit or loss		
Net foreign exchange (loss) / gain included in other income/other expenses net of tax	(34,506,982)	1,095,862
	<u>(34,506,982)</u>	<u>1,095,862</u>
Net gains recognised in other comprehensive income		
Foreign currency translation reserve net of tax	(23,504)	2,067
	<u>(23,504)</u>	<u>2,067</u>

At period end, major financial liabilities in foreign currencies were as follows:

	<u>Assets</u>	<u>Liabilities</u>	<u>Net 31 March 2016</u>	<u>Net 31 December 2015</u>
Euros	18,364,921	(134,128,649)	(115,763,728)	(186,657,909)
United States Dollars	5,358,754	(62,894,354)	(57,535,600)	(34,730,182)

At 31 March 2016, if the Egyptian Pounds had weakened / strengthened by 2% against the Euro with all other variables held constant, post-tax profit for the period would have been LE 2,315,275 (31 December 2015: LE 3,733,158) higher / lower, mainly as a result of foreign exchange gains/losses on translation of Euro-denominated financial assets and liabilities.

At 31 March 2016, if the Egyptian Pounds had weakened / strengthened by 10% against the US Dollars with all other variables held constant, post tax profit for the period would have been LE 5,753,560 (31 December 2015: LE 3,473,018) higher / lower, mainly as a result of foreign exchange gains/losses on translation of US dollar-denominated financial assets and liabilities.

(ii) Price risk

The Group has no investments in a quoted equity securities so it's not exposed to the fair value risk due to changes in the prices.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Financial risk management (continued)

(iii) Cash flow and fair value interest rate risk

The Group's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by short term time deposits which are renewed with the applicable interest rate at the time of renewal. Borrowings measured at amortized cost with fixed rates do not expose the company to fair value interest rate risk

At 31 March 2016, if interest rates on Egyptian pound -denominated net interest bearing liabilities had been 0.1% higher/lower with all other variables held constant, post-tax profit for the period would have been LE 149,289 (31 December 2015: LE 342,889) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

Borrowings at the balance sheet date with variable interest rate amounted to LE 481,073,378 (31 December 2015: LE 480,905,613).

Overdraft at the balance sheet on 31 March 2016 amounted to LE 77,327,168 (31 December 2015: LE 73,698,428).

(B) Credit risk

Credit risk is managed on group basis, except for credit risk relating to accounts receivable balances. Each local entity is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Credit risk arises from cash and cash equivalents, and deposits with banks and financial institutions, treasury bills, as well as credit exposures to customers, including outstanding receivables

For banks and financial institutions, the Group is dealing with the banks which have a high independent rating with a good reputation.

For the customers, the Group assesses the credit quality of the customers, taking into account its financial position, and their market reputation, past experience and other factors.

For Treasury bills, the Group deals with government which are considered with a high credit rating (Egypt B+).

No credit limits were exceeded during the reporting period, and management does not expect any losses from non-performance by these counterparties except for the impairment of accounts receivables presented in (Note 8).

The maximum exposure to credit risk is the amount of receivables as well as the cash and cash equivalents and Treasury Bills.

The group sells to retail customers which are required to be settled in cash, therefore there is no significant concentration of credit risk.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Financial risk management (continued)

Trade receivables

Counter parties without external credit rating:

	<u>31 March 2016</u>	<u>31 December 2015</u>
Other parties	11,423,847	6,387,918
Total	<u>11,423,847</u>	<u>6,387,918</u>

Outstanding trade receivables are current and not impaired

Cash at bank and short-term bank deposits:

	<u>31 March 2016</u>	<u>31 December 2015</u>
AA	125,085	823,278
A	117,706,541	156,075,388
BBB	112,784,384	137,853,764
B	16,634,280	1,201,037
Total	<u>247,250,290</u>	<u>295,953,467</u>

We had excluded the cash on hand.

The table below summarizes the maturities of the Company's trade receivables at 31 March 2016:

	<u>31 March 2016</u>	<u>31 December 2015</u>
Less than 30 days	8,900,254	4,591,020
From 31 to 60 days	2,399,693	1,645,476
From 61 to 90 days	73,290	65,896
From 91 to 120 days	50,610	85,526
More than 120 days	-	-
	<u>11,423,847</u>	<u>6,387,918</u>

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Financial risk management (continued)

Movements in the provision for impairment of trade receivables that are assessed for impairment collectively are as follows:

	<u>31 March 2016</u>	<u>31 December 2015</u>
At 1 January	20,556	138,785
Receivables written off during the period / year as uncollectible	-	(118,229)
	<u>20,556</u>	<u>20,556</u>

(C) Liquidity risk

Management monitors rolling forecasts of the company's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants) on any of its borrowing facilities. Such forecasting takes into consideration the company debt financing plans, covenant compliance, compliance with internal balance sheet ratio targets.

The table below summarizes the maturities of the Company's undiscounted financial liabilities at 31 March 2016 based on contractual payment dates and current interest rates as we had excluded the taxes payable, advances from customers and social insurance:

At 31 March 2016	Less than 6 month	Between 6 month & 1 year	Between 1 & 2 years	More than 2 years
Borrowings	76,115,686	42,311,547	110,766,425	251,879,707
Future interest payments	4,512,630	2,508,502	13,133,900	29,866,116
Trade and other payables	222,568,152	-	-	-
Bank overdraft	77,327,168	-	-	-
Notes payable	33,083,116	10,546,825	-	-
Total	413,606,752	55,366,874	123,900,325	281,745,823
At 31 December 2015				
Borrowings	63,735,176	70,953,151	97,684,524	248,532,762
Future interest payments	2,578,269	3,240,990	6,307,605	15,705,858
Trade and other payables	198,171,853	-	-	-
Bank overdraft	73,698,428	-	-	-
Notes payable	45,087,494	10,546,825	-	-
Total	383,271,220	84,740,966	103,992,129	264,238,620

The unused amount of borrowings is amounted to EGP 93,672,949 as of 31 March 2016, also the Group will have future interest payments related to borrowings amounting to LE 50,021,148 (31 December 2015: LE 27,832,722).

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Financial risk management (continued)

(2) Capital management

The group's objectives when managing capital is to safeguard their ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt represents all loans and borrowings, long-term notes payables and bank overdraft less cash and cash equivalents. Total capital is calculated as equity, plus net debts.

	<u>31 March 2016</u>	<u>31 December 2015</u>
Total borrowings and long term notes payable	491,620,190	491,452,438
Bank overdraft	77,327,168	73,698,428
Total borrowings and loans	568,947,358	565,150,866
Less: Cash and cash equivalents	(257,507,247)	(313,344,052)
Net debt	311,440,111	251,806,814
Total equity	1,126,434,790	1,174,822,535
Total capital	1,421,382,957	1,426,629,349
Gearing ratio	22%	18%

The increase in net debt to total capital is due to the decrease in cash and cash equivalents and decrease of total equity as a result of dividends distribution.

Loan covenants

Under the terms of the major borrowing facilities, the group is required to comply with the following financial covenants:

The debt to equity ratio must be not more than 1:1

(3) Fair value estimation

The fair value of financial assets or liabilities with maturities date less than one year is assumed to approximate their carrying value. The fair value of financial liabilities – for disclosure purposes – is estimates by discounting the future contractual cash flows at the current market interest rate that is available to the group for similar financial instruments.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated interim financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

4. Critical accounting estimates and judgments

1. Critical accounting estimates and assumptions

Estimates and adjustments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined below:

Fixed assets useful lives

Fixed assets are depreciated based on useful lives and estimated residual values of each asset which is determined in accordance with the Group's policy and in the light of the technical study prepared for each asset separately by the company's technical resources. In order on conformity with Egyptian accounting standards, the management will regularly reviews residual value and useful lives of assets and modified periodically.

Intangible assets impairment (Trade Mark)

The Group estimates the useful life of the trademark to be indefinite useful life based on trademark agreement which give the Group the license with perpetual, irrevocable and exclusive including the knowhow in the territory in connection with the HOHOS, Twinkies and Tiger tail products, accordingly, the Group's management annually test the impairment of intangible assets (Trade Mark), that have an indefinite useful life based on the financial and operational performance in previous years and the management expectation for the market developments in the future by preparing a business plan by using the growth rate and the discount rate prevailing

Intangible assets useful life (Knowhow)

The Group estimates the useful life of the knowhow to be 25 years based on the Group's useful life which is upon the management's expectation and intention

Inventory provision

The Group forms a provision for obsolete and slow moving items based on periodic reports related to the expiry and the quality of inventory.

Impairment of trade and other receivables

The evaluation of the impairment value in accounts and notes receivables is made through monitoring aging of the receivable. The Group management is studying the credit position and the customers' ability to pay their debts falling due within the credit limits granted to them. Impairment is recorded at values of the due amounts on the customers where the Group management determine that their credit position does not allow them to settle their liabilities.

Income tax

The Group is subject to corporate income tax. The Group estimates the income tax provision by using the advice of an expert. In case there are differences between the final and preliminary results, these differences will affect the income tax provision in these years.

2. Critical judgments in applying the group's accounting policies

In general the application of the Group's accounting policies does not require from management the use of personal judgment (except relating to critical accounting estimate and judgments "Note 4-1" which might have a major impact on the value recognized at the financial statement.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

Intangible assets (continued)

Accumulated Amortization	31 March 2016	31 December 2015
Opening Balance	(942,930)	-
Amortization expense during the period / year	(314,310)	(942,930)
Balance as of	(1,257,240)	(942,930)
Net book value for know how	30,173,755	30,488,065
Net book value for intangible assets (a+b)	161,654,402	161,968,712

Intangible assets which have indefinite useful lives - Trademarks (HOHOS, Twinkies & Tiger Tail)

The intangible assets in the amount of ten million US Dollars equivalent to LE 68,618,658 paid against buying all the rights to the trademarks (HOHOS, Twinkies & Tiger Tail) and the consequences of this acquisition of the trademark in the countries of Egypt, Jordan, Libya and Palestine these rights do not have a definite time, and on the 16th of April 2015 the Company had signed a new contract for the expanding the scope of the rights to the trademarks (Hohos, Twinkies, and Tiger Tail) to include Algeria, Bahrain,, Iraq,, Kuwait, Lebanon, Morocco, Oman,, Qatar, Kingdom of Saudi Arabia, Syria, Tunisia, United Arab Emirates and this trademarks has indefinite useful lives, and the this is against USD 8 Million equivalent to EGP 62,861,989.

HOHOS, Twinkies and Tiger tail are related to one cash generating unit within the same operating segment

The impairment of intangible assets is reviewed annually to ensure that the carrying value of the intangible assets does not exceed the recoverable value. The recoverable have been determined using value in use

Assumptions used by the Group when testing the impairment of intangible assets (indefinite useful life) as of 31 December 2015 as follows:

Average gross profit	34 %
Discount rate	19 %
Growth rate	3 %

The Group test the impairment of intangible assets depending on financial, operational, marketing position in the prior periods, and its expectation for the market in the future by preparing a business plan using the growth rate and the discount rate prevailing. At the balance sheet date the carrying value of the intangible assets is not less than its recoverable amount.

Sensitivity of recoverable amounts

At 31 March 2016, if the discount rate had increased / decreased by 1% with all other variables held constant, the recoverable amount is higher than the carrying amount, therefore there will be no need to make an impairment.

At 31 March 2016, if the growth rate had increased / decreased by 1% with all other variables held constant, the recoverable amount is higher than the carrying amount, therefore there will be no need to make an impairment.

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

As of 31 March 2016, the group has complied with the financial covenants of its borrowing facilities during 2016 and 2015 reporting periods.

12. Long-term notes payable

The long-term loan represents the total installment for the land purchased from Urban communities Authority – Shiekh Zayed City as the last installment on September 2016.

	31 March 2016		31 December 2015	
	Notes payable	Present value	Notes payable	Present value
Short-term notes payables				
Current portion of long-term notes payables (Note 17)	10,546,825	10,546,825	10,546,825	10,546,825
Total short-term liabilities	10,546,825	10,546,825	10,546,825	10,546,825
	31 March 2016		31 December 2015	
	Notes payable	Present value	Notes payable	Present value
Long-term notes payables:				
Notes payable due for more than one year and less than 5 years	-	-	-	-
Total long-term liabilities	-	-	-	-

The total accrued interest on the loan for the period ended at 31 March 2016 amounting to LE 177,135 (31 December 2015: LE 1,131,318) has been charged on the statements of Profit or loss as a finance cost (Note 25).

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

13. Deferred income tax liability

Deferred income tax represents tax expenses on the temporary differences arising between the tax basis of assets and their carrying amounts in the financial statements:

	Property, plant & equipment and intangible assets	Acquiring Digma for Trading	Total
Balance at 1 January 2015	75,367,533	4,056,641	79,424,174
Charge to the statement of profit or loss	15,352,551	(240,423)	15,112,128
Balance at 31 December 2015 and 1 January 2016	90,720,084	3,816,218	94,536,302
Charged to the statement of profit or loss	-	(60,106)	(60,106)
Balance at 31 December 2016	90,720,084	3,756,112	94,476,196

According to the tax system in Egypt, the tax losses amounted to LE 53,278,941 may be changed during the tax inspection by the tax authority, accordingly the management did not recognize deferred tax assets except the tax profit recognized in the financial period ended as of 31 March 2016.

14. Employee Benefit obligations

Employees of the company are entitled upon their retirement based on a defined benefit plan. The entitlement is based on the length of service and final remuneration package of the employee upon retirement. The defined benefit obligation is calculated using the projected credit unit method takes into consideration the principal actuarial assumptions as follows:

	31 March 2016	31 December 2015

EDITA FOOD INDUSTRIES (S.A.E.) AND ITS SUBSIDIARIES

Notes to the consolidated financial statements "IFRS" For the three months period ended 31 March 2016

(In the notes all amounts are shown in Egyptian Pounds unless otherwise stated)

27. Earnings per share

Basic

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the period / year.

	<u>31 March 2016</u>	<u>31 March 2015</u>
Profit attributed to owners of the parent	<u>32,667,822</u>	<u>59,464,672</u>
Weighted average number of ordinary shares in issue		
Original shares	<u>725,362,900</u>	<u>725,362,900</u>
	<u>725,362,900</u>	<u>725,362,900</u>
Basic earnings per share	<u>0.05</u>	<u>0.08</u>

Diluted

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company does not have any categories of dilutive potential ordinary shares, hence the diluted earnings per share is the same as the basic earnings per share.
