

El Sewedy Electric Gets the Accreditation of KEMA Laboratories

Cairo, Egypt- October 26th, 2010: Elsewedy Electric is proud to announce the accreditation of KEMA (one of the biggest laboratories in the world located in Netherlands) for manufacturing power transformers (125 MVA, 220 kV) in Elsewedy Electric plant located at the Tenth of Ramadan city.

As a result of this, Elsewedy Electric is now the first and only plant in Egypt, Africa and the Middle East to manufacture these transformers.

Moreover Elsewedy Electric signed a contract with the Egyptian Company for Electricity Transmission to supply 3 power transformers of a capacity 125 MVA, 220 /66/11 kV for Turra Station.
