My phone is a Samsung Galaxy J6 running the latest version of Android, the game is version 1.17.1 I think. I can confirm that the pug is still present. Given that this bug continues to be present, as well as other bugs (such as the progress scenario bar by showing your completion rate well if you have any mega biohazards brute; that one that has been here since early 2019, as far as I remember), and the fact that the Fake News scenario has not been added, it really makes me feel as if Ndemick is planning on sundown the Android version of Plague Inc., if it hasn't happened already. 21-01-2020, 08:45 PM Post: #9 KotelsTony Junior Member Posts: 7 Sets: 7 Aug 2015 RE: It is impossible to find 3 biohazards in the Ultimate Gaming Scenario Chart...
