

Revel Digital

Digital Signage *Evolved*

Revel Digital is a next generation platform for digital signage and media distribution.

Powerful, yet easy to deploy and manage

Our focus is on usability coupled with enterprise class features. Revel Digital provides all the tools necessary to deliver the best possible experience for both digital signage providers as well as end-users.

- Modern web based management UI
- One platform for kiosks, menus, point-of-sale, video walls, beacons & more
- Wide range of dynamic content including weather, social, & Google Docs
- Support for Android and Windows hardware
- Simplify large deployments with Smart Scheduling
- Support for all major media formats
- Unlimited design possibilities
- Enterprise features including media approval, alerting, and user roles

Trusted by our partners

Smart

Manage large scale networks easily with Smart Scheduling. Our rule based approach to scheduling utilizes various conditions and triggers to help you focus on the big picture.

Interactive

Any touch enabled device or screen can become an interactive kiosk with no additional hardware.

Audience Awareness

Deliver highly targeted media utilizing integrated support for face detection, bluetooth beacons, ultrasonic, and many other triggers.

Analytics

Reporting on key digital signage metrics including impressions, dwell time, age/gender, & more
