Foreword

The publication entitled "Indian Petroleum & Natural Gas Statistics" is brought out every year by the Ministry of Petroleum & Natural Gas. This publication contains the latest available information on the petroleum and natural gas in respect of India and world as well. A brief analysis of the data is provided on the Production, Exploration, Refining, Transportation and Marketing, Imports and Exports of crude oil and petroleum products along with the taxes and duties realized. Manpower employed in PSUs under Ministry of Petroleum & Natural Gas, Plan outlays and Actual Expenditures for all the Sectors for 12th Five Year Plan, Dividend Paid, Equity Capital and Profits of the PSUs have also been covered. International Petroleum Statistics provides a glimpse of world petroleum scenario. In order to meet the requirement of the diverse users, most of the information has been given calendar year-wise and financial year-wise as well.

It is our privilege to express deep sense of gratitude to all the data providers for their timely response because of which it has been possible to bring out the quality publication within the stipulated time. The efforts put in by the officials of Economics & Statistics Division in bringing out the present issue are highly appreciated. We hope that the bulletin will prove useful for the all kind of data users. Any comment/suggestion towards improving the scope, contents, layout etc. of this publication would be welcome and deeply appreciated.

2. **Coverage:** The Statistics presented in the current publication cover the exploration, production, refining, marketing activities etc. of Oil sector.
3. **Source:** The primary statistics in respect of petroleum and natural gas industries included in the publication are based on various returns, submitted by the oil public sector undertakings (PSUs), joint venture companies and private companies under the Ministry of Petroleum & Natural Gas. The sources of all the secondary data, including international statistics, incorporated in the publication, have been indicated at the bottom of relevant tables.
4. **Limitations:** The data in respect of sales/consumption of petroleum products reflect dispatches of various petroleum products from the sales depots of different oil companies to the bulk consumers/retail outlets. The state-wise sales/consumption of such products show dispatches to direct consumers / retail outlets meant for consumption / sales in a particular state.

I.2 Performance of Petroleum & Natural Gas Sector-Some Key Macro-Economic Trends

1.1 Introduction:

The Indian economy is at a critical stage of development. During 2014-15, the growth rate of Gross Domestic Product (GDP) at constant prices is estimated to have increased by 7.3%, with growth in 'Manufacturing' at 7.1% and 'Mining and quarrying' at 2.4%. The revival in growth of the industrial sector and softening of international prices of crude oil led to increase in demand for petroleum products by 4.15% during April-March, 2014-15 over the same period last year. Given the limited domestic availability of crude oil and natural gas the country is compelled to import over 75% of its domestic requirement.

1.2 Crude Oil and Natural Gas Production:

The crude oil production for the year 2014-15 is at 37.461 Million Metric Tonnes (MMT) as against production of 37.788 MMT in 2013-14, showing a decrease of about 0.87%. Apart from natural decline in the old and ageing fields, production of crude oil was affected due to less production from RJ-ON-90/1 related to operational problems in July, 2014. Rajahmundry and Cauvery assets' production was affected due to closure of wells owing to the GAIL pipeline incident. In Neelam-Heera asset there was reduced crude oil production due to clamping of sub-sea lines. Prolonged bundhs and blockages in Assam also affected production from North Eastern region.

For the year 2014-15, production of natural gas is 33.656 Billion Cubic Meters (BCM) which is 4.94 % lower than production of 35.407 BCM in 2013-14. This was mainly due to lower production in Bassein & Satellite fields, underperformance of 6 newly drilled wells in M&S Tapti, seizure of 1 well in KG-D6 and closure of non-associated gas wells of Ravva during October, 2014 due to GAIL pipeline incident near Tatipaka.

The trends in the production of crude oil and natural gas for the year 2009-10 to 2014-15 have been depicted below:

Table-1: Crude Oil and Natural Gas Production

Year	Crude Oil Production (MMT)	% Growth in Crude Oil Production	Natural Gas Production (BCM)	% Growth in Natural Gas Production
2009-10	33.690	0.54	47.496	44.61

1.3 Refining Capacity & Refinery Crude Throughput:

There has been considerable increase in refining capacity in the country over the years, although there was no capacity expansion during 2014-15. The refining capacity stood at 215.066 MMTPA as on 01.04.2015. By the end of 12th Five Year Plan, refinery capacity is expected to reach 307.366 MMTPA. Refinery Crude Throughput (Crude Oil Processed) for the year 2014-15 is 223.242 MMT as against 222.497 MMT in 2013-14, showing a marginal increase of about 0.33%. However, shutdown of HMEL's Bhatinda (GGS refinery) during June-September, 2014 owing to VGO Fire Incident in June, 2014 affected crude processing by the refinery during this period. The trend in Refining Capacity and Crude throughput during 2009-10 to 2014-15 are depicted below.

Table -2 Refinery Capacity & Refinery Crude Throughput (in terms of Crude Oil Processed)

Year	Refining Capacity @ (MMTPA)	% Growth in Refining Capacity	Crude Throughput (MMT)	% Growth in Crude Throughput

1.4 Production and Consumption of Petroleum Products

The production of petroleum products is at 221.136 MMT in year 2014-15 as against 220.756 MMT achieved in 2013-14, showing a marginal increase of about 0.17%. However, production was affected due to planned outages in IOCL-Panipat, Koyali & Bongaigaon refineries during April-July, 2014.

During the year 2014-15, the consumption of petroleum products in India was 164.987 MMT with a growth of 4.15% as compared to consumption of 158.407 MMT during 2013-14.

Graph-5: Trend in Imports & Exports of Petroleum Products

1.7 Foreign Direct Investment Inflows:

In order to attract Foreign Direct Investment (FDI) in the sector, the FDI policy has been further liberalized. FDI for petroleum refining by CPSEs has been allowed with 49% foreign equity under the automatic route instead of approval through Foreign Investment Promotion Board. Year-wise FDI inflows under Petroleum & Gas sector is given in Table-7 below. It may be observed that inflow of FDI in petroleum and natural gas has varied considerably over the years that could at least be partly due to the bulkiness of investment in the sector. The highest FDI inflow was received in 2011-12 at Rs. 9955.17 crore contributing almost 6% of total FDI inflow in the economy. During the year 2014-15, FDI inflow was received Rs. 6473.22 crore contributing almost 3.42% of total FDI inflow in the economy.

Notes: 1. Proved reserves of oil - Generally taken to be those quantities that geological and engineering information indicates with reasonable certainty can be recovered in the future from known reservoirs under existing economic and operating conditions.

2. Reserves-to-production (R/P) ratio - If the reserves remaining at the end of any year are divided by the production in that year, the result is the length of time that those remaining reserves would last if production were to continue at that rate.

3. Source of data - The estimates in this table have been compiled using a combination of primary official sources, third-party data from the OPEC Secretariat, World Oil, Oil & Gas Journal and an independent estimate of Russian and Chinese reserves based on information in the public domain. Canadian oil sands 'under active development' are an official estimate. Venezuelan Orinoco Belt reserves are based on the OPEC Secretariat and government announcements.

4. Reserves include gas condensate and natural gas liquids (NGLs) as well as crude oil.

5. Shares of total and R/P ratios are calculated using thousand million barrels figures.
