

DATA AND SOFTWARE CENTRE

Western Australia Resource Information and Map Services

The Data and Software Centre enables the download of statewide spatial datasets and various spatial application software, including GeoMap.WA and the Mineral Exploration Reporting Templates Software

Each dataset zip file contains the following:

- Metadata statement (HTML File)
- The Dataset [unprojected, geographical coordinates based on the 1994 Geocentric Datum of Australia (GDA94)].
- Licence statement (text file)

To open a category click on the plus sign 

To view a dataset's metadata, click on the dataset name. The last updated column will assist you in determining the latest dataset or software build.

To download a dataset, click on the [Download link](#) and select a data format.

For instructions on using KML / KMZ files in Google Earth [click here](#)

Please note the URL (web address) to display the image Map Service has been updated, please refer to the updated link provided in the Image Map Service section below.

Statewide Spatial Datasets

-  **100K geological series mosaic images**
-  **250K geological series mosaic images**
-  **250K Topography series mosaic images**
-  **3D Geology**
-  **Geochemistry**
-  **Geochronology**
-  **Geology**
-  **Geophysics**
-  **Graticular blocks**
-  **Indexes**
-  **Land Use Planning**
-  **Mineral information**
-  **Petroleum information**
-  **Special category lands**
