Core Functions:

[PreNext](#)

[Develop and enforce measures aimed at preventing and controlling pollution](#)

Core Values

Committed to upholding our values of customer service, integrity, transparency, accountability and partnerships by:

- Treating every customer/client with respect, dignity and fairness;
- Upholding high standards of professionalism and ethics;
- Ensuring transparency and openness in all our dealings at every level;
- Ensuring that we are individually and collectively accountable for all we handle and all we do, including people, resources, decisions and actions;
- Working with all, for the current and future generations, through strong partnerships at individual, household, community, sector, national, regional and global levels;
- Upholding the law as established.

Our Mandate

To do all such things as are necessary to ensure the sustainable management of natural resources and protection of the environment, and the prevention and control of pollution.
