HSE

ADNOC and its Group Companies aspire to achieve an exemplary HSE performance in the Oil and Gas Sector. ADNOC has always strived to develop its business in a Sustainable manner, and this is being performed in alignment with strategic plans, that are environmentally, socially and economically responsible. Our track record in protection of the environment, occupational health & safety, and social responsibility sets the standard for the oil and gas industry around the Arabian Gulf.

ADNOC is dedicated to implementing robust integrity HSE Management System and carrying out HSE impact assessment studies to eliminate, control and mitigate risks. Our performance demonstrates attainment of world class safety due to our continual improvement in HSE Management system.

We are mindful of the importance of Occupational Health and Safety in every aspect of our business. Hence, ADNOC places persistent efforts to reinforce the safety culture across our operations. As we always re-iterate; the health and safety of our employees and everyone affected by our activities is a top priority and a fundamental aspect to an outstanding sustainable performance. Our approach to managing health and safety is set out in our centralized framework of operational standards which are known as the ADNOC Codes of Practice.
