Qatargas established in 1984, pioneered the liquefied natural gas (LNG) industry in Qatar. Today, Qatargas the largest LNG producer in the world, with an annual LNG production capacity of 42 million tonnes per annum (mta) is realising its vision to deliver LNG to its customers around the globe, from its world-class facilities in Qatar.

Chairman's Message

The history of the gas industry in the State of Qatar is a unique story of success for the country and its people. In just over two decades, Qatar has managed to transform itself from a small oil producer to... [more](#)
