

About EGAS:

His Excellency Minister of Petroleum issued a decree in August 2001 to establish **The Egyptian Natural Gas Holding Company (EGAS)**, as an entity mandated to focus on the natural gas activities, adapting an effective action plan to organize and diligently handle the activities of the natural gas resources of Egypt to add value to the Egyptian economy.

EGAS is engaged in a wide range of activities, including :

- **Upstream** : Exploration, Drilling and Production of natural gas
- **Downstream** : Processing, Transmission, Distribution of natural gas in the domestic market, and Liquefaction and LNG Marketing.

Vision:

Develop natural gas business in Egypt to be one of the key natural gas players in the region and worldwide.

Mission:

- **Operate** with integrity to improve HSE performance and increase the staff & contractors awareness.
- **Maintain** a strategy of innovation and growth.
- **Continue** issuing Bid Round, signing Concession Agreements and applying applications of state of art technology in all Exploration processes.
- **Increase** natural gas proven reserves to meet all obligations that fulfill local market demand and export commitments.
- **Increase** Annual Production to manage Supply Vs Demand requirements.
- **Create** Infrastructure and optimize Facilities Utilization.
- **Project** Management aiming cost optimization and effective schedule.
- **Maximize** applying the Value Added Projects.
- **Establishing** new specialized companies in the area of Drilling, Engineering & Marine vessels.
- **Expand** Egyptian Natural Gas Grid to meet the targeted projects and develop new communities
