

NORSK PETROLEUM

LISENSER

Lisenser, eller utvinningstillatelser, gir enerett til undersøkelse, leteboring og utvinning av petroleumforekomster innenfor lisensens angitte geografiske område. Rettighetshaverne blir eiere av den petroleum som produseres. En lisens kan omfatte én eller flere blokker eller deler av blokker og regulerer de deltakende selskapers rettigheter og plikter i forhold til staten.

Lisenser tildeles av Olje- og energidepartementet enten i nummererte konsesjonsrunder eller ved årlig tildeling i forhåndsdefinerte områder (TFO).
