On the territory of Ata village Sarajs district of Ahal region new petrol station were built, which equipment supplied by leading European manufacturers, put into operation and complied with the highest technical quality standards. Modern gas stations located along the highway Tejen-Sarajs, designed for servicing 750 units of cars per day.

The new plant is equipped with modern fuel-the dispenser that provides a fast and reliable refueling of passenger cars, trucks, buses and other vehicles all kinds of motor fuel: gasoline A-80, A-92 and A-95 and diesel fuel. Thanks to convenient two-way entrances four eight cars can simultaneously serve the fuel dispenser.

Technological cycle fuel storage and release fully computerized and complies with all safety requirements, including environmental, that is immutable rule for all construction sites in the country.

In addition to refueling fuel motor drivers is offered and additional services. If necessary, you can replace the oil, use the services of a repair shop and car wash.

Installation constructions of gas station have implemented self-supporting unit specialists from Ahal Repair and Construction Management "Turkmennebitonumleri" ("Turkmen Oil Products"). Job filling station will improve the services to ensure consumer area of automotive fuel.

New petrol station - one of the four operating in Sarahs district. In 2015, "Turkmennebitonumleri" control forces were built and put into operation 10 new petrol stations in various districts of Ahal, Mary, Lebap and Balkan regions of Turkmenistan.
