Data Room

The Petroleum Dataroom hosts Geoscience and Engineering data such as 2D and 3D seismic data, well reports and maps. Data on over 181 wells (onshore & offshore) and over 94,669 km 2D and 21, 000 sq. km 3D seismic are available:

1. Invited parties would be allowed access to available seismic and wells data , associated reports and maps over the Area Of Interest. Visitors can view and interpret the seismic data on workstations during the allocated period.
2. Additional data can be licensed upon request. Arrangements can also be made to view well cuttings, drilling mud samples and core data.
