FAQ

Welcome to Botswana Chamber of Mines

Botswana Chamber of Mines was established more than twenty years ago by a group of mines that wanted to have a concerted voice when discussing issues that affect the mining industry with stakeholders such as government and other interested parties. The Chamber is a non-governmental organisation, which depends on funding from its members. We are also determined to influence policy that would ensure sustainability and prosperity of the industry..[more](#)

SMVMS TO TAKE THEIR CHALLENGES ON HAND

Set for Success

The PMDP has reached a critical phase after a fully comprehensive period which involved all of Botswana's public and private sector entities. The strength of the PMDP is in its continuous consultation with its partners, including their involvement in the development of the Programme and the implementation of its activities.

The PMDP is working in partnership with the TrustAfrica Programme, implemented by the Government of Botswana, High Potential, De Deben and International Management, African Business (IMB) and Senior Expert Services (SES), from Germany to ensure maximum impact for beneficiaries SMVMS.

Botswana's service providers and international organisations will be engaged in the next phase of the programme, focusing on the delivery and the monitoring of the donor-financed projects, building relations for SMVMS.
