The AER issues several statistical reports (STs) on a regular basis. These daily, weekly, monthly and other reports detail everything from drilling activity to gas processing plants to well licenses issued to pipeline approvals.

Publications are either listed here for free or can be ordered through the Information Distribution Services (IDS). Please review the Products & Services Catalogue (<http://www1.aer.ca/ProductCatalogue/index.html>) for product options and prices before contacting IDS at InformationRequest@ aer.ca (<mailto:InformationRequest@ aer.ca>). Historical versions of some publications can also be viewed at the AER library.
