## Global Energy Supplier Striving for Excellence

RasGas Company Limited (RasGas) is one of the world's premier integrated liquefied natural gas (LNG) enterprises and has an enviable reputation for being a safe and reliable supplier of LNG that has transformed a regional resource into a key component of the global energy mix. RasGas manages and operates seven LNG trains, two sales gas production facilities, two helium plants as well as a long-term charter fleet of 27 LNG vessels. The company also manages the construction of the Barzan Gas Project which will fuel major development in Qatar and further RasGas' contribution to all four pillars of the Qatar National Vision 2030.

### Sustainability Report 2014

RasGas' sustainability report builds on the foundation of sustainability reporting that we have established within the company and provides further information and new perspectives on performance.
