About Us

About the centre

Independent Oil and Gas Information Resource Centre (IOGIRC) is an independent institution under the Oil and Gas Capacity Building Project (OGCBP) with support from the World Bank established to operate as an interactive space for information on the oil and gas sector. IOGIRC provide comprehensive information on the oil and gas sector especially within Ghana to ensure transparency in the operations of all stakeholders and players. The centre offers varied range of information on oil and gas sector including regulations, oil and gas agreements, oil and gas companies, oil fields, government and non government agencies and their roles, relevant academic institutions and training centres, sector statistics, industry analysis and current trends, forecasts, oil and gas revenue management, projects, research and many more. We offer these through both online and offline oil and gas events, seminar presentations, articles, newsletters, quarterly reviews, interviews, talk shows on various media platforms etc. IOGIRC keep you abreast about technical strategic and commercial issues that affect your bottom line. We provide online oil and gas information which includes articles, interviews, press release, webinars, oil and gas video presentations, white papers, live oil and gas prices and oil and gas industry research. We seek to provide 100% practical information to enhance transparency in Ghana's nascent oil and gas industry to educate and inform government and non government agencies, various stakeholders and industry players, academicians and the general public. Our duty is to educate and inform and our hallmark is to be independent.

Mission

The Independent Oil and Gas Information Resource Centre (IOGIRC) is a knowledge hub, which is committed to promoting transparency and access to information on the oil and gas industry in Ghana.

Vision

The vision of the IOGIRC is to become the primary information Centre which provides the most comprehensively valid and innovatively accessible information on the oil and gas industry in Ghana.

Objectives

The IOGIRC aims to acquire, organize and innovatively provide quality information on the oil and gas industry and related activities in Ghana by:

1. Acquiring, managing and providing access to a comprehensive collection of information resources on oil and gas that are useful for business, research and self-learning purposes.
2. Developing, managing and providing access to an interactive data and intelligence Internet portal which provides comprehensive oil & gas industry analysis, forecasts, and an assessment of project, company and industry developments and trends.
3. Promoting transparency through educating the public and collaboration with institutions in the oil and gas industry to share knowledge and resources.
