Conventional aspects

ISIS Concession

Holders:

- ✦ ETAP 20%
- ✦ VIKING: 80 %. Opérateur VIKING

The recouvrable reserves

Huile, 9,1 Millions de BBL

Project summary:

ISIS Concession is situated off the coast of Tunisia about 150 km from Sfax and 220 km from La Skhira. The sea is about 77 m deep. Production installations will be situated close to offshore wells.

It is actually the recovery of the field development operated by LUNDIN from 2001 using FPSO Ikdam unit, then temporarily, abandoned in 2006.

ISIS redevelopment outline is to lease a new FPSO unit that will be moored close to the producing wells and installing monopod platforms on which the wellheads will be placed.
