

Nilepet Petroleum Corporation

Profile

Nilepet Petroleum Corporation, the national Oil & Gas Corporation of South Sudan, was established in 2003 under the Civil Authority for New Sudan (CANS) to link oil companies with CANS, the then civil government in the liberated areas of South Sudan. Nilepet was incorporated on the 1st day of June 2009 under the New (South) Sudan Companies Act 2003 by the Ministry of Legal Affairs and Constitutional Development, government of South Sudan. Nilepet is the technical, operational & commercial arm of the Ministry of Petroleum & and Mining in the government of the Republic of South Sudan. Nilepet was created to build the national technical capabilities of the Government of South Sudan and to maximize Government take of oil profit.

Products/Services overview

Nilepet aims to: explore, develop, produce, add value and manage resources in an efficient and environmentally sound manner; promote the sustainability and growth of the national oil industry, safeguard national oil interest and guarantee higher returns for the nation; develop capable and competent management and technical workforce; and be a socially responsible and environmental-friendly business entity.
