➤ Promote and monitor the explorations for oil and gas

➤ Develop and produce oil and gas

Conduct research and development of the oil and gas industry

## Welcome To Tanzania Petroleum Development Corporation(TPDC)

Tanzania Petroleum Development Corporation (TPDC) is the National Oil Company of Tanzania through which the Ministry of Energy and Minerals implements its petroleum exploration and development policies. TPDC has a manpower strength of about 400 and is organized into seven directorates and three Units, namely: Directorate of Upstream, Directorate of Downstream, Directorate of Finance, Directorate of Legal Services, Directorate of Cooperate Strategy and Planning, Directorate of Corporate Management, Directorate of Internal Audit, Communication Unit, Procurement Unit and Risk Management Unit. TPDC was established through the Government Notice No.140 of 30th May 1969 under the Public Corporations Act No.17 of 1969. The Corporation began operations in 1973. TPDC is a wholly owned Government parastatal, with all its shares held by the Treasurer Registrar.

Posted on: April 8, 2016

It gives me great pleasure to welcome you, on behalf of the Board of Directors, Management and TPDC Staff to our Website. TPDC is undergoing massive reform aimed at making TPDC a stronger National Oil Company (NOC) operating for the interest of the Nation. The new TPDC will participate fully in upstream operations as well as downstream operations through its subsidiaries. At TPDC, we have a vision to become a global competitive company and a key player in the Oil and Gas industry both regionally and internationally. It is along these lines we have decided to revamp our website to give our readers relevant and updated information in the Oil and Gas subsector. I hope you will find this website useful.

— Managing Director, Dr. J. P. Mataragio

## What We Do

### Upstream

Petroleum Exploration in Tanzania begun in the 1950's when BP and Shell were awarded concessions along the coast, including the islands of Mafia, Zanzibar and Pemba. Extensive geological work was conducted including the drilling of more than 100 stratigraphic shallow boreholes...

### Downstream

Downstream Operations include the processing and purifying of raw natural gas, marketing and distribution of products derived from crude oil and natural gas. The Directorate is also responsible for undertaking infrastructure development and value addition activities...

[read more + \(downstream.php\)](#)

### Midstream

The implementation of the Government Natural Gas Project is in progress under the close monitoring and supervision of TPDC. The project also includes the construction of natural gas transportation pipeline from Songo Songo and Mtwara via Somanga Fungu (Kilwa) to Dar es Salaam...
