## MoMP publishes 17 signed mining contracts

**Publish Date:** Jun 29, 2015 **Category:** [General](#)

[Press Release](#)

June 29, 2015

Following the publication of signed mining contracts Afghanistan Ministry of Mines and Petroleum published 17 more mining contracts. The purpose of publishing these contracts is the access of the people of Afghanistan to the content of the contracts.

Ministry of Mines and Petroleum (MoMP) is believed that the publication of these contracts will facilitate the transparency in mining contracts. On the other hand, with access to this information people can easily be aware of the implementation of these contracts.

Recently published contracts included all the details. The main goal of MoMP is to become an institution to manage all the natural resources of Afghanistan with transparency and accountability.

Recently published contracts are as following:

- 1- Development of Chromite occurrence of Kohi Safi of Parwan Province. – Afghan Active Company.
- 2- Fluorite of Nish district of Ningarhar Province – Amania Co.
- 3- Marble of Chisht District of Herat Province. – Adil Brothers Co.
