[\(PRESS\)](#) Partnership in Statistics for Development in the XXIst Century (PARIS21) released the 2016 Partner Report on Support to Statistics (PRESS). This year's report provides a snapshot of ongoing worldwide financial support to statistical development and an overview of overall trends. [Download full report 2016\(pdf\)](#)

[National communication policy and dissemination of statistical information in Cameroon:](#)

The Director General of the National Statistics Institute is pleased to present the National Policy of communication and dissemination of statistical information in Cameroon. The development of this important development tool aims to bring producers and users of official statistics to work together and to create optimal conditions to confirm the government's option to Statistics a development issue.
