

Type of Resources	Proven Reserve	Byproducts	Status	Start of Production	Expected Life of Mine, Years	Processing capacity/Annual Production	Number Employees
Gold	9.4 Million Ounces	Silver, copper	Producing Underground Mine, CIL plant under expansion		25	1.1 Mt	2457
Gold	1.1 Million Ounces	Silver	Producing Open pit Mine		5	4.4 Mt	836
Gold	5.4 million troy ounces	Silver	Producing Open pit Mine				1638
Gold	2.2 Million Ounces	Silver	Producing Open Pit Mine, (going underground)		10	2.8 Mt	300
Gold	0.13 million troy ounces	Silver	Producing Mine				
Tanzanite	30.6 million carats	Graphite	Producing Mine				670
Diamonds	4.93 million carats		Producing Mine				561
Ruby zoisite							
Tanzanite		tsavorite					
Uranium	99.3 million pounds		Granted SML, Negotiating MDA				
Coal	35.4 million tons		Reconstruction under STAMICO				
Coal	412 million tons		Producing Mine				
Coal	428 million tons	Thermal coal (600MW plant), Industrial coal (1.5Mt/a)	Under mobilisation		100	3Mt	
Nickel	241.2 billion pounds		Advanced Project under Retention				
Cobalt	30.56 million pounds						
Gold	2.46 Million tonnes @ 6.1 g/t		Producing Mine	August, 2012		0.41 Mt	300
Iron	126 Million tons	Steel (1Mt/a), Titanium (%), Vanadium (%)	Under mobilisation		50 Years	2.9 Mt	
Gold	450koz at 5.43g/t		Early development & Definitive engineering study		10

Niobium

Uranium	2.43 million pounds	Advanced Prospecting	Advanced Prospecting
Gold	4.1Moz at 1.3g/t Au.	Advanced Prospecting	Advanced Prospecting
Rare Earth Oxides	21.6 million tonnes at 4.54% REO	Advanced Project under Retention	Advanced Project under Retention
Nickel	60,800 Tonnes	Advanced Prospecting	Advanced Prospecting
Gold	24.1 Million tonnes	Advanced Project under Retention	Advanced Project under Retention
Coal	40.2 million tons	Prospecting stage
