Weekly Business Roundup

The Weekly Business Roundup is a Business Bulletin issued two times a month. It helps to provide updated trade related information inside Cambodia and globally. The Weekly Business Roundup provides current activities and trade related situations such as 1) Ministry of Commerce management activities, highlighting related trade activities that the Ministry of Commerce management has accomplished; 2) trade information on Cambodia's trade commodity, exchange rate, the price of necessary products in Phnom Penh and international markets, wholesale prices of key products in all provinces of Cambodia and the weekly commodity price index in Phnom Penh; 3) the world economic information on the circulation of current important products of the world - supply and demand in the world market and 4) information of company registration which shows general information about all the registered companies at the Ministry of Commerce as Newly Established Amendments, Domestic Branches, Foreign Branches and the Dissolution of a company. ...

Import and Export Statistics

Import and Export Statistics is the yearly import-export statistics of Cambodia; it shows about the commodity and market of Cambodia's trade during the year. The Import and Export Statistics consists of four categorized documents: 1) Cambodia's Exports by Country, listing all countries with their imported products from Cambodia; 2) Cambodia's Export by Product, listing all products with the imported countries from Cambodia; 3) Cambodia's Imports by Country, listing all countries with their exported products to Cambodia and 4) Cambodia's Import by Product, listing all products with the exported countries to Cambodia during the year. This Import and Export Statistic will give the traders, businessmen, investors and any other economic development researchers important trade statistics information to assist in better decision-making in order to achieve their goals in development of trade, business, investment, economics and trade policy and other related development activities....

Business Registration Year Book

The Business Registration Year Book is published once a year; it combines the general information of all registered companies at the Ministry of Commerce during the year. The Business Registration Year Book categorizes the information by each month of the year. It shows general information about Newly Established, Amendments, Domestic Branches, Foreign Branches and Dissolution of companies. ...
