Home	Documents Held by the Afghanistan Geological Survey and the Ministry of Mines - Search Results
About the AGS	These are the results of your search. Each document has an inventory number. Entries with a hyphen and a second number after the inventory number are inclusions within the document (graphic annexes, maps, <i>etc.</i>). Click on the inventory number to see all entries for that document. Click on the title to see the full version of the record. A maximum of 20 records are shown on each page.
Contacts	Displaying 1 - 20 / 55 records found.
Geology	Jump to page: 1 2 3
Minerals & Mining	307 - 1.4
Information Resources	Map of factual materials [data] of prospecting-survey works in Hajigak iron-ore deposit 1964 Map
Environment	316 Geological structure of the Hajigak iron deposit and its commercial value Type of document not entered Languages: English Commodities: Fe - Iron Ore Keyphrases: IRON ORES
Donor Support	324 The project of the geological survey, searching and prospecting works on iron ores in the area of the Hajigak deposit Type of document not entered
Links	Authors: Manucharyants O. Mirzad S.H. Kusov I. Commodities: Fe - Iron Ore Keyphrases: IRON ORES
Department of Mines Affairs	334 Project of geological survey, prospecting-exploration and exploration works on iron ores in Hajigak deposit area in Afghanistan 1963 Unpublished Report Authors: Manucharyants O. Mirzad S.H. Kusov I. Technoexport-Ministry of mining and Industry of Afghan Kingdom Languages: Russian Commodities: Fe - Iron Ore Keyphrases: IRON ORES
	600 - 3.02

Geological map of Hajigak deposit region. Scale 1:50 000 1965 Map

600 - 3.03

Map of factual materials of prospecting survey works of Hajigak deposit region. Scale 1:50 000 1965 Map

600 - 3.04

Geological-structural map of Hajigak iron-ore deposit. Scale 1:10 000 1965 Map

600 - 3.05

Data map of prospecting-mapping on iron deposit Hajigak. Scale 1:10 000 1965 Map

600 - 3.06

Geological-prospecting plan of western area of Hajigak iron-ore deposit. Scale 1:2 000 1965 Graphic

600 - 3.07

Hajigak deposit, Western area. Geological cross-sections along prospecting lines 1 and 2. Scale 1:1 000 1965 Graphic

600 - 3.08

Hajigak deposit, Western area. Geological cross-sections along prospecting lines 3 and 4. Scale 1:1 000 1965 Graphic

600 - 3.09

Hajigak deposit, Western area. Geological cross-sections along prospecting lines 5 and 6. Scale 1:1 000 1965 Graphic

600 - 3.10

Hajigak deposit, Western area. Geological cross-sections along prospecting lines 7 and 8. Scale 1:1 000 1965 Graphic

600 - 3.11

Hajigak deposit, Western area. Geological cross-sections of detrital ore deposit "B". Scales vertical 1:500 and horizontal 1:1 000 1965 Graphic

600 - 3.13

Vertical longitudinal projection of ore body I with block system and categorization of reserves (Western area, Hajigak iron-ore deposit). Scale 1:2 000 1965 Graphic

600 - 3.14

Vertical longitudinal projection of ore body II with block system and categorization of reserves (Western area, Hajigak iron-ore deposit). Scale 1:2 000 1965 Graphic

600 - 3.15

I. Plan of calculation of reserves of ore body IX. II Vertical longitudinal projection of ore-body IX with block system and categorization of reserves. III. Geological cross-sections. Hajigak deposit, Central area. Scale 1:10 000 1965 Graphic

600 - 3.16

Hajigak deposit, Western area. Geological level plan 3 560 m. Scale 1:2 000 1965 Graphic

600 - 3.17

Hajigak deposit, Western area. Geological level plan 3 640 m. Scale 1:2 000 1965 Graphic

600 - 3.18

Hajigak deposit, Western area. Prospecting line 4. Geological log data of adit No 1 (I - cross section, II - plan. Scale 1:500
1965 Graphic
