**NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**For the three months ended March 31, 2016

---

**1. GENERAL**

JSC “National Company “KazMunayGas” (the “Company”, “KazMunayGas” or “Parent Company”) is a wholly owned state oil and gas enterprise of the Republic of Kazakhstan, which was established on February 27, 2002 as a closed joint stock company pursuant to the Decree No. 811 of the President of the Republic of Kazakhstan dated February 20, 2002 and the Resolution of the Government of the Republic of Kazakhstan (the “Government”) No. 248 dated February 25, 2002. The Company was formed as a result of the merger of National Oil and Gas Company Kazakhoil CJSC and National Company Transport Nefti i Gaza CJSC. As the result of the merger, all assets and liabilities, including ownership interest in all entities owned by these companies, have been transferred to KazMunayGas. The Company was reregistered as a joint stock company in accordance with the legislation of the Republic of Kazakhstan in March 2004.

Starting from June 8, 2006, the sole shareholder of the Company was JSC “Kazakhstan Holding Company for State Assets Management “Samruk” (“Samruk”), which in October 2008 was merged with the state owned Sustainable Development Fund “Kazyna” and formed JSC “National Welfare Fund Samruk-Kazyna” (“Samruk-Kazyna”), now renamed to JSC “Sovereign Wealth Fund Samruk-Kazyna”. The Government is the sole shareholder of Samruk-Kazyna. On August 7, 2015 National Bank of Republic of Kazakhstan (“National Bank of RK”) purchased 10% plus one share of the Company from Samruk-Kazyna.

As at March 31, 2016, the Company has a direct interest in 37 operating companies (as of December 31, 2015: 37) (jointly the “Group”).

The Company has its registered office in the Republic of Kazakhstan, Astana, Kabanbay Batyr avenue, 19.

The principal objective of the Group includes, but is not limited, to the following:

- participation in the Government activities relating to the oil and gas sector;
- representation of the state interests in subsoil use contracts through interest participation in those contracts; and
- corporate governance and monitoring of exploration, development, production, processing, transportation and sale of hydrocarbons and the designing, construction and maintenance of oil-and-gas pipeline and field infrastructure.

These interim condensed consolidated financial statements of the Group were approved by the Managing director for economics and finance and the Chief accountant on May 25, 2016.

**2. BASIS OF PREPARATION AND CHANGES TO THE GROUP’S ACCOUNTING POLICIES**

The interim condensed consolidated financial statements for the three months ended March 31, 2016 have been prepared in accordance with IAS 34 *Interim Financial Reporting* (IAS 34). These interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended December 31, 2015.

**Foreign currency translation***Functional and presentation currency*

Items included in the financial statements of each of the Group’s entities included in these interim condensed consolidated financial statements are measured using the currency of the primary economic environment in which the entities operate (“the functional currency”). The interim condensed consolidated financial statements are presented in Kazakhstan tenge (“tenge”), which is the Group’s presentation currency.

*Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at reporting date exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the interim condensed consolidated statement of comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

(continued)****Foreign currency translation (continued)***Transactions and balances (continued)*

Differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of monetary items that are designated as part of the hedge of the Group's net investment in foreign operations. These items are recognised in other comprehensive income until the net investment is disposed of, at which time, the cumulative amount is reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

*Group companies*

The results and financial position of all of the Group's subsidiaries, joint ventures and associates (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at that reporting date;
- income and expenses for each statement of comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognized as a separate component of other comprehensive income.

*Exchange rates*

Weighted average currency exchange rates established by the Kazakhstan Stock Exchange (“KASE”) are used as official currency exchange rates in the Republic of Kazakhstan.

The currency exchange rates of KASE as at March 31, 2016 and December 31, 2015 were 343.62 and 340.01 tenge to 1 US dollar accordingly. These rates were used for translation of monetary assets and liabilities denominated in US dollars at March 31, 2016 and December 31, 2015. The weighted average rate for three month ended March 31, 2016 were 356.56 tenge to 1 US dollar accordingly. The currency exchange rate of KASE as at May 25, 2016 was 336.24 tenge to 1 US dollar.

**New and amended standards and interpretations**

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2015, except for the adoption of new standards and interpretations effective as of January 1, 2016. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The nature and the effect of these changes are disclosed below. Although these new standards and amendments apply for the first time in 2016, they do not have a material impact on the annual consolidated financial statements of the Group or the interim condensed consolidated financial statements of the Group. The nature and the impact of each new standard or amendment is described below:

*IFRS 14 Regulatory Deferral Accounts*

IFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of IFRS. Entities that adopt IFRS 14 must present the regulatory deferral accounts as separate line items on the statement of financial position and present movements in these account balances as separate line items in the statement of profit or loss and other comprehensive income. The standard requires disclosure of the nature of, and risks associated with, the entity's rate-regulation and the effects of that rate-regulation on its financial statements. IFRS 14 is effective for annual periods beginning on or after 1 January 2016. The Group is an existing IFRS preparer and does not apply this standard.

**2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES  
(continued)****New and amended standards and interpretations (continued)***Amendments to IFRS 11 Joint Arrangements: Accounting for Acquisitions of Interests*

The amendments to IFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business, must apply the relevant IFRS 3 Business Combinations principles for business combination accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation if joint control is retained. In addition, a scope exclusion has been added to IFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party. The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the Group as there has been no interest acquired in a joint operation during the period.

*Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortization*

The amendments clarify the principle in IAS 16 Property, Plant and Equipment and IAS 38 Intangible Assets that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is a part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016. These amendments do not have any impact to the Group given that the Group has not used a revenue-based method to depreciate its non-current assets.

*Amendments to IAS 16 and IAS 41 Agriculture: Bearer Plants*

The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of IAS 41 Agriculture. Instead, IAS 16 will apply. After initial recognition, bearer plants will be measured under IAS 16 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of IAS 41 measured at fair value less costs to sell. For government grants related to bearer plants, IAS 20 Accounting for Government Grants and Disclosure of Government Assistance will apply. The amendments are retrospectively effective for annual periods beginning on or after 1 January 2016. These amendments do not have any impact to the Group as the Group does not have any bearer plants.

*Amendments to IAS 27: Equity Method in Separate Financial Statements*

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying IFRS and electing to change to the equity method in their separate financial statements will have to apply that change retrospectively. First-time adopters of IFRS electing to use the equity method in their separate financial statements will be required to apply this method from the date of transition to IFRS. The amendments are effective for annual periods beginning on or after 1 January 2016. These amendments do not have any impact on the Group's interim condensed consolidated financial statements.

*Annual improvements 2012-2014 Cycle*

These improvements are effective for annual periods beginning on or after 1 January 2016. They include:

*IFRS 5 Non-current Assets Held for Sale and Discontinued Operation*

Assets (or disposal groups) are generally disposed of either through sale or distribution to owners. The amendment clarifies that changing from one of these disposal methods to the other would not be considered a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no interruption of the application of the requirements in IFRS 5. This amendment must be applied prospectively.

## New and amended standards and interpretations (continued)

*Annual improvements 2012-2014 Cycle (continued)**IFRS 7 Financial Instruments: Disclosures*

- Servicing contracts

The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and the arrangement against the guidance for continuing involvement in IFRS 7 in order to assess whether the disclosures are required. The assessment of which servicing contracts constitute continuing involvement must be done retrospectively. However, the required disclosures would not need to be provided for any period beginning before the annual period in which the entity first applies the amendments.

- Applicability of the amendments to IFRS 7 to condensed interim financial statements

The amendment clarifies that the offsetting disclosure requirements do not apply to condensed interim financial statements, unless such disclosures provide a significant update to the information reported in the most recent annual report. This amendment must be applied retrospectively.

*IAS 19 Employee Benefits*

The amendment clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used. This amendment must be applied prospectively.

*IAS 34 Interim Financial Reporting*

The amendment clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the interim financial report (e.g., in the management commentary or risk report). The other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. This amendment must be applied retrospectively.

These amendments do not have any impact on the Group.

*Amendments to IAS 1 Disclosure Initiative*

The amendments to IAS 1 clarify, rather than significantly change, existing IAS 1 requirements. The amendments clarify:

- The materiality requirements in IAS 1;
- That specific line items in the statement(s) of profit or loss and OCI and the statement of financial position may be disaggregated;
- That entities have flexibility as to the order in which they present the notes to financial statements;
- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement(s) of profit or loss and OCI. These amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the Group.

*Annual improvements 2012-2014 Cycle (continued)*

*Amendments to IFRS 10, IFRS 12 and IAS 28 Investment Entities: Applying the Consolidation Exception*

The amendments address issues that have arisen in applying the investment entities exception under IFRS 10 Consolidated Financial Statements. The amendments to IFRS 10 clarify that the exemption from presenting consolidated financial statements applies to a parent entity that is a subsidiary of an investment entity, when the investment entity measures all of its subsidiaries at fair value.

Furthermore, the amendments to IFRS 10 clarify that only a subsidiary of an investment entity that is not an investment entity itself and that provides support services to the investment entity is consolidated. All other subsidiaries of an investment entity are measured at fair value. The amendments to IAS 28 Investments in Associates and Joint Ventures allow the investor, when applying the equity method, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries.

These amendments must be applied retrospectively and are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the Group as the Group does not apply the consolidation exception.

**3. SEASONALITY OF OPERATIONS**

The Group's operating costs are subject to seasonal fluctuations, with higher expenses for materials and repair, maintenance and other services usually expected later in the year rather than in the first six months. These fluctuations are mainly due to the requirement to conduct formal public tenders during the first six months for goods and services purchased in the second six months of the year.

**(continued)****4. DISCONTINUED OPERATIONS AND ASSETS CLASSIFIED AS HELD FOR SALE**

In accordance with the Governmental plan on the privatization of state owned companies in 2016-2020, the Group considers certain assets as the discontinued operations. The Group considered assets to meet the criteria to be classified as discontinued operations and assets classified as held for sale at March 31, 2016 for the following reasons:

- assets are available for immediate sale and can be sold in its current condition;
- the actions to complete the sale were initiated and expected to be completed within one year.

**5. PROPERTY, PLANT AND EQUIPMENT (continued)**

For the three months ended March 31, 2016, the Group capitalized in the carrying amount of property, plant and equipment borrowing costs at the average interest rate of 0.38% in the amount of 6,052,106 thousand tenge which are related to the construction of new assets (for the three months ended March 31, 2015: 3,398,641 thousand tenge at the average interest rate of 2.57%).

As at March 31, 2016, items of property, plant and equipment with the net book value of 446,821,344 thousand tenge (as at December 31, 2015: 386,385,948 thousand tenge) were pledged as collateral to secure borrowings and payables of the Group (*Note 11*).

Additions to capital work in progress are mainly related to modernization projects of the Group refinery located in Atyrau and development drilling at Ozenmunaigas and Embamunaigas subsidiaries.

As at March 31, 2016 the cost of fully depreciated but still in use property, plant and equipment were 80,234,288 thousand tenge (as at December 31, 2015: 77,608,360 thousand tenge).

**25. SUBSEQUENT EVENTS**

On March 31, 2016 the Group entered into four years crude oil and liquefied petroleum gas ("LPG") supply agreement with **SC Rompetrol** and on April 13, 2016 received an advance of 1.5 billion US dollars (equivalent of 501 billion tenge). The total estimated delivery volume approximates 30 million tons of crude oil and 1 million tons of LPG in the period from the start of the contract to June 2020. The agreement stipulates pricing calculation with reference to market quotes and payments are settled through physical deliveries of crude oil and LPG starting from May 2017. The outstanding balance of advances received is subject to interest at 1M Libor+1.85% per annum.

On April 15, 2016 the London Court of International Arbitration issued award to recover the costs related to SC **Biorom** oilfield in the amount 22 million US dollars.

On April 15, 2016 the KMG signed certain transaction documents on the selling 51% interest in KMG I to CEFC **Harbin International Holding Co., Ltd (CEFC)**. The transaction is estimated to be completed by October, 2016 after obtaining necessary clearance from European and other regulatory authorities.

According to a Decree issued 22 April 2016, prosecutors of Romania with the General Headquarters of the Department for Fight Against Organized Crime and Terrorism (DIICOT) have ordered a reclassification and continued investigation of the case against 26 suspects under charges of organized crime (14 of them were employees of KMG I). In accordance to the same Decree, there were added several civil responsible parties to the case, which include KMG I, SC **Oilfield Exploration Business Solutions SA** and SC **Rompetrol Rafinare S.A.** (KMG I subsidiaries). The amount of claims of the civil parties is RON 1,724,168,825, USD 290,786,616 and EUR 34,941,924. By Decree issued on 6 May 2016, the DIICOT applied a prejudgment seizure on KMG I, SC **Oilfield Exploration Business Solutions SA** and SC **Rompetrol Rafinare S.A.** movable and immovable assets except bank accounts, receivables and inventories. Prescribed seizure will not impact on the operational activity of the companies. KMG I is in the process of appealing the seizure order in domestic courts and international arbitration. The investigation is ongoing and court trial is expected after investigation is finished.
