Extractive Industries

Mali's mining sector is dominated by gold production, the country is Africa's third largest producer of gold. In 2013 gold exports accounted for about 75% of export earnings and approximately 7.6% of GDP [according to the IMF](#).

Other [minerals](#)? produced include bauxite, iron ore, diamond, limestone, manganese, nickel, petroleum, phosphates, tin and uranium.

Mali's mining sector continues to grow despite political volatility in recent years. According to its 2012 report, the country is intensifying exploration activities for oil and gas.
