BIDDING

This course provides an overall overview of the bidding functionality in ETS.

If you have any questions or need help with Bidding, please forward them to: Bidding.Energy@gov.ab.ca

[Bidding Overview](#)

This module provides an overview of the bidding functionality in ETS.

[Initiate Bid Request](#)

This module provides information on how to create and submit a bid request. Creating bid requests can be done by using the Bid Request screen or, by using a map interface screen to select your parcels.

[Metis Bid Request](#)

This module describes the procedure for a Metis Bid Request and how to upload the Metis supporting documentation.

[Query By Map](#)

This module provides information on how to use Query by Map for a Bid Request.

[Query by Map Show Me](#)

This is a video demonstration on how to use Query by Map for Bidding.

[Change Bid Request](#)

This module provides information on how to review, edit or withdraw and track bid request(s).

[Retrieve Agreement Documents](#)

This module shows the successful bidder on how to retrieve the agreement documents.
