Quick and Easy Healthy Breakfast Ideas

It has been proven through research that breakfast is the most important meal of the day for growing children. Children who eat breakfast are more attentive in school and have dramatic improvements in behavior and grades. It has also been proven through research that eating breakfast helps with weight loss. Eating breakfast in the morning gives your metabolism a jump start to keep it going throughout the day. One of the key components to weight loss is to burn more calories than you are taking in. This is accomplished by many different factors; the important one being “regulation/control” of metabolism. The first half to “controlling” your metabolism is eating regularly, including three meals with one or two snacks during the day. Below is a list of quick and easy healthy breakfast ideas.

- Ready-to-eat cereal with fruit and milk
