

**RCPE TRACKS AT-A-GLANCE**

		Network & Infrastructure Visibility Track	EUE & Application Visibility Track	WAN Optimization Track	Network Configuration Track	Virtualization & Storage Track
<b>PROFESSIONAL</b> Specialization on advanced services of implementation, operations, administration, and support for performance management solutions	<b>Professional Level</b>	Aggregate Visibility	Aggregate Visibility	Datacenter Optimization Architecture	Network Planning & Configuration Management	Branch Virtualization & Storage
		Packet Visibility & Analysis	End-User Visibility & Analysis	Application Optimization		
		Flow Visibility & Analysis	Application Visibility & Analysis	User Optimization Architecture	Branch & Datacenter Network Configuration	
<b>ASSOCIATE</b> Develop skills on the application of performance engineering solutions for those new to performance engineering	<b>Associate Level</b>	Network & Infrastructure Visibility	EUE & Application Visibility	WAN Optimization	Network Configuration	Virtualization & Storage
<b>FOUNDATIONAL</b> Preparation to learn how software defined solutions solves for the performance of enterprise IT	<b>Foundations Level</b>	Performance Foundations
