About the University of Hartford

Spread across seven dynamic schools and colleges, the University of Hartford has been guiding the purpose and passion of students for over six decades. On our 350-acre campus alongside Connecticut's capital city, approximately 4,200 undergraduate and 1,800 graduate students representing 47 states and 55 countries come together for a common purpose: to collaborate across different disciplines, diversify perspectives, and broaden worldviews. We're a four-year private university focused on advancing the public good through meaningful connections within our communities. Our unique approach to comprehensive education gives us the critical perspectives that lead to impact change, regionally and beyond. With degree programs spanning the arts, humanities, business, engineering and technology, education, and health professions, we focus on doing the work that matters.
