

HEALTHCARE FACILITIES LEADERSHIP

What is Healthcare Facilities Leadership?

It takes more than doctors and nurses to care for patients in the nation's growing

healthcare industry. Skilled leaders are crucial to ensuring hospitals and other healthcare facilities operate efficiently and effectively. If you are working in healthcare facilities management or you'd like to be part of this exciting and rewarding field, OCTC's Healthcare Facilities Leadership (HFL) program could be for you. The program is convenient and affordable. You can access our courses from anywhere, because they are all online.

This unique associate degree program can help you advance in your career and prepare you to take the American Hospital Association's Certified Healthcare Facilities Management exam. Graduates may transfer HFL credits towards bachelor's degrees. This innovative program was developed in collaboration with ASHE and KSHE.

For information, contact Program Director Mike Canales at mike.canales@kctcs.edu or (270) 852-8142.
