Dear Hiring Manager,

I am writing to express my interest in the IT position at your organization. With over ten years of experience as a Senior Systems Administrator, IT Manager, and Senior IT Engineer, I offer a proven track record in technical support, secure network and server administration, cybersecurity, and IT infrastructure optimization, along with strong leadership and organizational skills.

In addition to my technical expertise, I hold an active U.S. Government security clearance with Top Secret currently in process, reflecting a high level of trust and reliability placed in me by the federal government. I have consistently supported classified environments and understand the critical importance of maintaining confidentiality, security, and compliance in IT systems.

Throughout my career, I have led complex IT projects to improve infrastructure performance, enhance security, and streamline operations. I am known for solving complex technical challenges, creating efficient and resilient systems, and providing strategic advisory support to align IT operations with organizational goals.

During a recent professional hiatus, I took the opportunity to travel and broaden my global perspective, further developing my adaptability, communication, and problem-solving abilities. This experience has reinforced my professional focus, and I am now fully prepared to re-engage in a mission-driven IT role.

I am ready to start immediately and eager to bring my dedication, technical expertise, and trusted government-backed credentials to your team. Please feel free to contact me at (603) 732-2666 or David.Schunk@comcast.net to discuss how I can contribute to your organization.

Thank you for your time and consideration. I look forward to the opportunity to support your mission.

Sincerely,
David Maksim Schunk
