## COURSE PROJECT

---

### Database Management Systems

**Spring 2019**

Identified a dataset from NYC Taxi & Limousine Commission (TLC) to solve a business problem of NYC taxis.

- Identified the business problem.
- Imported the dataset into MySQL and analyzed it.
- Identified functional dependencies.
- Developed a solution to solve the business problem.

### Managing People in Organizations

**Fall 2018**

Formed a small organization of 8 for the semester to earn money and donate it to a charity of our choice.

- Established how to manage ourselves across the semester by identifying organizational norms for behavior.
- Managed issues that surfaced across the semester.
- Pitched in money to buy a popcorn popper, popcorn kernels, bags, and other materials.
- Sold popcorn to customers every weekend.
- Reflected on how well we were managing our organization from week to week.
- Wrote about our management experiences by using course concepts and keeping an organizational journal.
- Presented our experiences as an organization to the class.
- Invited a representative of the Covenant House to receive a donation of \$358.
