Faith in Battle: The Discussion of Mental Illness & Christ Centered Help

Mental illness is an abstract and powerful force that affects millions of people all over the world. It is a burden that is a heavy weight on those battling with a disorder, as well as those watching a loved one struggle.

On March 26th, Julie Ann Braun, a local motivational speaker who specializes in mental illness discussions, and Peter Panitzke, a local Milwaukee pastor, will be leading the discussion of how to face such forces with a Christ centered perspective. The program attendees will gain a broader perspective of how mental illness affects individuals and families.
