SUMMARY
Competent and passionate professional with developed industrial experience which is pertinent in the manufacturing community.

EDUCATION
Gadsden State Community College, Anniston, Alabama
Certification, awarded 2011
Major: Welding Technology   Dean's List   GPA: 3.6

Jacksonville State University, Jacksonville, Alabama
Bachelor of Science, to be awarded Dec 2019
Major: Applied Manufacturing Engineering,   Concentration: Design and Automation
Applied Electronic Engineering   Dean's List   GPA: 3.5

Related Coursework
Programmable Logic Controllers (RSLogix5000, FactoryTalk View HMI)	Digital Electronics
Six Sigma/Toyota Production System	Manufacturing Automation/Robotics (Fanuc LR Mate 200iC)
Computer-Aided Manufacturing/Design (AutoCAD/Pro-Engineer)	Control Systems Technology
OSHA 10-hour General Industry Safety	Engineering Computation (C++)
	Introduction of Psychrometric

RELEVANT EXPERIENCE
MedXcel Facilities Management, Birmingham, AL
Building Automation Intern, Summer 2019
- Found and verified working devices on the company's building automation system, other devices have been identified for upgrades and/or replacements based on assessments.
- Used information to evaluate failures, to eliminate operational deficiencies, and to give the user the ability to maintain efficient plant operations by using the manufacturer's software (Siemens, Trane, Johnson Controls) to make abnormalities visible.
- Used software to identify defective and inactive devices, to determine integration capabilities for a common communication platform, and to provide a roadmap to diagnose, remediate, and repair abnormalities within the system.
- Performed preventive maintenance and trouble-shooting services primarily to manage the physical environment (heating, air conditioning, energy, and electrical work) of the building as a team.
- Presented weekly technical reports to over twenty peers and supervisors to discuss and implement service plans for the problems and causes identified, then identifying possible solutions and foreseen challenges and how to overcome those challenges.

WORK EXPERIENCE

> *Honda Manufacturing*, Lincoln, Alabama
>> Forklift Operator, 2016-2017
> *Wal-Mart*, Jacksonville, Alabama
>> Customer Availability Processor, 2016-2017
> *U.S. Army*, Colorado Springs, Colorado
>> Fort Lee, Virginia
>> Food Service Specialist, 2013-2015
> *Letterkenny Army Depot*, Chambersburg, Pennsylvania
>> Welder, 2011-2013
> *Anniston Army Depot*, Anniston, Alabama
> Weld Helper, 2009-2011

Additional Abilities

- Productively self-managed
- Effective team-member
- Systematic thinker
- Analytical problem-solver
- Coherent verbal and written communication skills
- Strong root cause analysis skills
- Excellent listening skills
- Intuitive adaptability skills
- Advanced Microsoft office user (Word, Excel, and PowerPoint)
- Admirable customer service skills
- Patient/positive
