---

## Summary

- ❖ Early-Career Cybersecurity Operations, Threat Intelligence, & Technology professional seeking an opportunity to apply my diverse background & skillset, including Cybersecurity (didactic & practical acumen) as well as communications & content creation, towards improving an organization's Information Security posture and the overall well-being of their technological infrastructure.
- ❖ Demonstrated history of effectively leveraging complex technologies to meet mission-critical operational goals / Key Performance Indicators (KPIs)
- ❖ Detail oriented self-starter with a strong work ethic, capable of working with minimal supervision & skilled in effectively communicating in asynchronous, geographically distributed settings.
- ❖ Highly adaptable to different environments & technologies (Windows v Mac v Linux, closed-source v open-source, offensive vs defensive Cybersecurity).

## Work Experience

### Operation Safe Escape ([safeescape.org](https://safeescape.org)) **Security Operations Center (SOC) Analyst**

Remote | Part-Time pro bono | January 2021 – Present

- ❖ Provided pro bono Cybersecurity services as part of a non-profit assisting survivors of domestic violence, stalking, & harassment faced w/ technologically apt abusers, adversaries, threat actors.
- ❖ Responded to tickets escalated by Tier-1 & Tier-2 Technology Operations Center (TOC) staff
- ❖ Contributed to Cybersecurity awareness training & production of material for distribution in conjunction with cross-functional (XFN) partners incl. the Education Director.
- ❖ Provided internal Cybersecurity training & mentoring to Tier-1 & 2 TOC staff.

Director, Technology Operations Center & Security Operations Center's recommendation available upon request.

### The National Child Protection Task Force ([ncptf.org](https://ncptf.org)) **Intelligence Analyst**

Remote | Part-Time pro bono | December 2020 - Present

- ❖ Conducted open source & 3rd party private intelligence collection & analysis activities to locate missing & exploited children as well as assess threat actors / dangerous organizations (incl. transnational criminal organizations or TCOs)
- ❖ Coordinated with All-Source Intelligence Analysts, Law Enforcement & other cross-functional partners.

### Trace Labs ([tracelabs.org](https://tracelabs.org)) **Open-Source Intelligence (OSINT) Analyst**

Remote | Freelance Pro-Bono | January 2020 - Present

- ❖ Leveraged a variety of search engines, social media sites, as well as Open-Source Intelligence (OSINT) methodologies & tools to conduct high-stakes intelligence collection & analysis activities for at least 10 missing persons cases per month, including individuals victimized by human trafficking.
- ❖ Collaborated directly w/ senior management to develop OSINT documentation & training material.

## Arte Studios (artetattoostudios.com) **Graphic Web Designer**

Gainesville, Georgia | Full-Time | January 2017 – December 2020

- ❖ Developed customized creative work product for client marketing campaigns, including print materials, brochures, banners, logos, & signs to support clients with their product branding strategies.
- ❖ Developed 3 dynamic & interactive websites using the latest in human-computer interaction (HCI) design principles that ensured high traffic, page views, & a high-quality user experience (UX), resulting in a significant increase in gross revenue over a short period of time.

## Art By Chase (artbychase.com) **Marketing & Design Consultant**

Atlanta, Georgia | Freelance | January 2013 – December 2020

- ❖ Established and operated an independent marketing service that offered services including graphic design, web design, video editing, & special effects.
- ❖ Successfully fulfilled custom freelance projects for individuals, businesses, & public figures.

## RuneLife **Principal Game Developer, MMORPG**

Remote | Freelance | January 2008 – January 2012

- ❖ Created a massively multiplayer online role-playing game that accumulated over 1,000,000 player accounts from around the world with an average of 3,000 active daily players.
- ❖ Utilized Java & C++ to develop customized modifications & features to optimize in-game experience for players, including the capability to purchase in-game content.

## Education

**Georgia State University** | Atlanta, GA | September 2018 - Present

Bachelor of Science, Computer Information Systems (Class of 2022)

- Robert L. Campell Scholar

**Tel Aviv University** | Remote | March 2021 – Present

Professional Certificate, Cybersecurity

**SANS Technology Institute** | Remote | June 2020 – March 2021

Independent coursework, Cybersecurity
