Hassan Alsulaiman

Risk Management and insurance student
Rockdale

Summary

Third-year risk management and insurance student, future risk manager. My passion for decision making and numbers brought me to the School of Business at Georgia State University, where I am working on my BBA in risk management. Last semester I completed the Foundation program, which covers Accounting, Macroeconomics, Microeconomics, Business Law, and Computer based Information Systems.

The most valuable lesson I have learned from GSU has been the importance of being the type of person who will ask the right questions and make sound decisions. My classes in the foundation year have provided me with great insights for a future career in Risk management.

This year I have mastered CIS and Accounting. I continue to build knowledge in finance. Next year, I hope to complete an RMI internship that will provide real-life experience and essential leadership skills.

Education

Georgia State University

Risk Management & Insurance, Risk Management · (2018 - 2022)
