WORK EXPERIENCES

General Electric Aviation
Finance Management Intern

Cincinnati, OH
June 2020 – August 2020

- Analyzed and tracked commercial engine inventory comprised of nearly \$97 million with over 200,000 total parts for national disbursement to major clients to assist in internal audited financials
- Consolidated and summarized the current inventory in order for our accountants to have an accurate description of the categorized products to be used for Q2 and year of end financials
- Presented a final case study to the CFO on how our internal inventory has been affected due to COVID and how we as a company can adjust physical inventory count requirements
- Reported to daily meetings due to the high fluctuation that our accountants and operations teams were seeing

LexisNexis Elsevier
Sales Research Assistant

Springboro, OH
December 2019 – January 2020

- Developed an excel database tracking institutions and universities without a Social Science Research Network
- Reached out to key contacts from the institutions and began forming the relationship with our sales team
- Participated in internal innovation meetings thinking about how our strategy can change when approaching specific universities and institutions

High Concrete Group
Concrete Production Worker

Springboro, OH
June 2019 – August 2019

- Formed concrete molds to be constructed for municipal projects, predominately buildings and parking garages
- Utilized key mechanisms in working with a team by reporting with our team leader and trusting individuals to handle complicated industrial equipment
